

- **Surgery**
 - Progression of nerve regeneration
 - Penis Transplantation
 - Testicle transplantation
 - Metoidioplasty / phalloplasty advancement
 - Extended meta with UL
 - TCM
- **Neurobiology**
 - Mental health effects of estrogen/progesterone vs testosterone on transgender men, Biochemical dysphoria
 - Specific neurological benefits of alleviation of dysphoria
 - Gender dysphoria in toddlers / very young children
 - Medical explanation for gender dysphoria
 - *Genital* dysphoria and reasons for existence
 - Biological component of gender identity
- **HRT regimen**
 - DHT in addition to testosterone
 - Finasteride and voice development
 - Topical testosterone, genital HGH for clitoral growth
 - Aromatase inhibitors
 - DHEA
 - Medical dosing with standard health metrics
 - Fat redistribution maximization and reducing reversion to feminine pattern (?)
- **Testosterone**
 - Lingering ovulation while on testosterone
 - Estrogen production while on testosterone
 - Hair loss prediction, interaction between **genetics** and HRT on balding
 - Titrating vs full dose on voice development, bottom growth, extremity growth
 - Effect on Autoimmune disorders
 - Musculoskeletal effects compared to cis men
 - Aromatization vs cis men on TRT
 - Vaginal microbiome \ atrophy
 - Adam's apple development
 - Fertility
 - Effects on PMDD
 - More data on timelines, research on people who don't get certain changes
 - Effectiveness of various delivery methods (gel, patches, injection)
- **Post transition**
 - Presentation of STIs in post phallo
 - Hormonal changes post complete hysterectomy and further masculinization
- **MISC**
 - Sex based outcomes and **where** transgender people fit in (hormonal profile/chromosomal profile/secondary sex characteristics, etc.)

- Incidence of EDS in transgender population in general
- Endometriosis and treatment / surgical treatment
- Incidence of autism spectrum disorder in transgender population in general
- Early onset puberty related to stress
- Bladder and pelvic issues pre hysterectomy in transgender men
- Incidence of PCOS and treatment
- Hormonal abnormalities in trans men before exogenous hormones
