USA Swimming Membership

Dear TSM families,

I hope you're doing well! Just a quick reminder that all TSM swimmers need to have an up-to-date USA Swimming membership. This is required before you can participate in practices, team events, or competitions. It also offers insurance coverage during practices, events, and sanctioned competitions.

Starting September 1, 2022, USA Swimming has implemented a change: each athlete must now handle their own registration or renewal individually.

Please take a moment to carefully read the information below and follow the steps to successfully register or renew your membership for the 2026-2027 season.

Notes:

1. Members **under 16** are not eligible to create their own login account.
2. Everyone must create a login account on the SWIMS 3.0 database unless you already have one
    a. Parents of swimmers under 16 must create an account under their own name and information.
3. Everyone must use their personal email address, which they can always access.
4. Everyone who still needs to register or renew their membership must do so ASAP.
5. If this is your first time registering for a USA Swimming Membership, please watch the videos before or during the registration process.

Please use the unique links below to register for the 2026-2027 USA Swimming membership.

Full Price Membership (All TSM Swim Team members need a Premium (full price) membership. Please do NOT sign up for Flex membership.)

- *You may need to click on the link again after you create your account!*

USA Swimming and SoCal Swimming have a program for families that would benefit from lower costs related to swimming registration and meet fees called the "Outreach" program. To see the requirements for this program please see X (this is something we need).

- ***If you believe you qualify for this program and would like to take advantage of it, please email the BoD President at president@teamsantamonica.org and provide one of the required forms of proof***
