References

Personally, I deeply appreciate it if a customer takes care and collects references for an artwork. Reference may be made by using only a fragment of image with a particular element (*e.g. specific gesture, or clothing detail, or ornament, etc*)

1. Reference of your character's appearance
2. Palette of your character
3. Facial structure
4. Pose
5. Clothing
6. Shoes
7. Any items (swords, books, bags)
8. Background details

You don't need to search for something looking exactly the same as you imagined it. The rough idea or basic shapes will work, if you add a proper description (*e.g. this bag doesn't look exactly like what i want, my character wears something bigger, with more pockets, but it's designed in somewhat similar way*)
