

# Invitation To Join Beat Selling Accelerator

It's a 5-minute read and a 2-minute decision.

I'm going to describe what BSA is about and then you can decide when you want to join.

BSA is designed to not only teach you the new way of selling beats online, but also teach you how to actually implement the strategies step-by-step into your beat selling business.

I've sold over 2500+ beats and along the way accumulated a lot of wins, scars, and battles through countless hours of studying business, human psychology, music production, and marketing.

About 4 years ago, after failing at previous business ventures I stumbled upon online beat selling.

Then, I put myself in uncomfortable situations to grow as much as possible, figuring out a strategy by doing things I didn't know how to do.

My motto? Always improve. Every video, beat, reel, sales page, etc. must be better than the last, always striving to add something new each time.

I'm proud to say that I've accomplished that goal to always improve and fast forward to now, I have sold thousands of beats, crafted a formula that works every-time, and make a living off my music.

In the last 3 years I've accelerated the growth of my beat selling business achieving the following:

- I had a type beat channel go from 0-30k subscribers in 1 year. Generating \$17,632 in its first year off YouTube Ad-revenue alone. The following year it did \$31,929 off Ad-revenue, also reaching 50k+ subscribers that same year.
- I've had 4 type beat video's surpass 1 million views. 10 videos to get 500k+ views. 63 type beat videos to surpass 100,000 views. 400+ type beat videos surpass 10,000 views. Etc.
- I generated \$100,000 selling beats by the time I turned 16-years-old
- I sold beats directly to artists such as Lil Tjay, SouljaBoy, etc.
- I grew dozens of type beat channels to thousands of subscribers in multiple different niches.
- All of this was achieved while I was still in highschool.

My Beatstars Sales (screenshot of my dashboard):

These are just my beatstars sales, I have made many sales through DM's & manual transactions (via CashApp, PayPal, Venmo, etc.)

Now, I don't want to focus on teaching producers to be youtube experts, algorithm geniuses or any type of X and Y.

Plenty of people do that and the other reason I don't is that "algorithms" are always changing.

Instead, what I focus on is teaching them how to think.

So they can see things others can't see, connect the dots, and build their own formula.

I teach producers how to build foundations in their business that will outlive social-media algorithms.

Once they can do that, they can imagine, pull apart, build and rebuild beat selling businesses & growth mechanisms from the ground up.

As a result, they each have a unique strategy that can't be copied and that also stands the test of time.

I'm not only a mentor, trainer, and teacher, I'm also a hands-on advisor & consultant in everything they're doing.

It's almost as if I partner with them working on their beat selling business. That's the level of involvement from myself.

It's taking everything I know and adding a new dimension to it by teaching it to you via live calls and where we'll have fireside chats and round table discussions about the topics.

And in the process of learning how to sell beats in every kind of niche, you will develop skills beyond anything out there.

- You will become one of the best, online-beat-sellers in the game.
- You will be able to sell beats in any market with confidence and know (not guess) that your approach will skyrocket the sales right out the gate
- You will be able to understand why certain type videos work or don't work
- You will be able to write convincing copy that persuades artists into buying high ticket offers. (12 exclusive beats for an album, etc.)
- You will be able to do that and just about everything else you can imagine in the beat selling game.

And then, you're going to have something that you've always wanted.

And that something is choice.

You can choose what you want to do...

Do you want to be a highly paid music producer?

Or maybe you want to go and build a beat selling business and live your best life?
