

EON-XR EDUCATOR WORKSHOP

IMPLEMENTATION STEP 5

Hello and welcome to the EON Reality community! We are glad you are here!

Soon you will embark on the EON-XR Educator Workshop adventure. The workshop is exciting, interactive, and hands-on. EON-XR experts will guide you through using EON-XR, and provide best practices for building XR experiences. Our goal is for you to leave with working learning experiences for your learners, and a certification for your efforts!

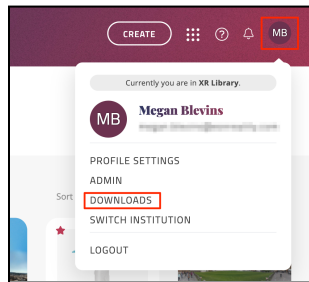

To meet these goals, we need you to do a few simple things to make the most out of our time together. Think of this like your packing list for your adventure! **Before the workshop**, please complete the following tasks.

Pre-Workshop Task List

Please complete the following tasks **PRIOR** to the workshop.

1. Log in at least once to the website and the mobile app.
 - a. You will receive an email prompting you to log in for the first time once your license is given to you by your Lead Administrator.
 - b. Do NOT create your own account on EON-XR. Wait for your email. Creating an account while your lead admin is trying to create one for you will cause duplication which leads to a delay in getting in.
2. Download the EON-XR app to both your mobile device AND computer.

- a. Use the Downloads area once you have logged in to download the desktop version of EON-XR.

- b. To download on a mobile device, access the App store on your tablet or phone to download the EON-XR app.
3. Pick an SLO/objective from your subject that you want to build an XR learning experience around.
4. Gather any digital materials you typically use to support that SLO/objective, you'll want them for building your learning experience.

Bonus: Pick at least one asset from the EON-XR library you want to use for that learning experience.

You do not need to create any learning experiences before the workshop, but feel free to explore the app as much as you would like! If you do explore, keep track of your questions, and bring them to the workshop.

If you have any issues logging into EON-XR, please reach out to:
