

# Installing Chrome:

## Instructions:

1. [Go to this link](#) to download the installer for Google Chrome.
2. Find the download ([documents](#) -> [downloads](#)) and double click it to open it.
3. Click to install Chrome!
4. When the “admin password page” pops up, press Escape!
5. Click “Yes” to the white pop-up saying you can download Chrome anyway!
6. Wait for Chrome to download (5-20 seconds).
7. Click the “Next” button then click to set Chrome as your default browser.
8. Chrome should then open!
9. Go to [my website with this link](#).
