Dear MHS Community,

This morning, Wednesday, May 14 we experienced a Building Evacuation at Massabesic High School at approximately 9:30 am. This evacuation was initiated by our alarm system due to some ongoing construction associated with our new modular buildings. Per protocol, we collaborated with the Waterboro Fire Department to assess the causation of the alarm. Students and staff reentered the building at approximately 9:45 am and the day continued as scheduled. As always, we appreciate the respect and compliance demonstrated by students and staff to conduct the procedure efficiently and correctly.

Regards,

Ty Thurlow
