

- A number of parents have expressed interest in forming a Parents' Association.
- This would prove a huge asset to our school as it allows for increased communication & co-operation between home and school, which all lends to a more rounded, connected and fulfilling experience for the children and all members of the school community.
- We would envisage that the PA would be open to all and that at least one member of each school family would be an active member.
- We all have valuable skills, interests and talents that can create amazing things when pooled.
- Please consider becoming an active member, as per the guidelines an initial meeting will take place where a committee is elected.
