Detailed Score

There's an elaborate list of services on this website. The dropdown menu lists all products available on the website. They include financial accounting assignment, business report, case study, essay, all kinds of programming assignments, and much more. In addition, this service offers CDR assignment help, especially designed for Aussie students.

However, there's a very limited number of subject areas offered for essay help: law, management, humanities, nursing, and philosophy. If you need an essay on a topic from social sciences, economy, psychology, or any other area of study that's not listed here, you won't be able to use this service. We contacted the support to find out if they were able to provide an essay on psychology topic. The support agent immediately responded with a positive answer. However, after our experience with My Assignment Help, we realized they didn't have an expert in their team. They assigned a freelance writer who paraphrased random content and delivered a plagiarized essay.

\$50 for this paper. That's \$12.5, with the discounts included.

Revision and refund policy Myassignmenthelp.com Review

Myassignmenthelp.com Review Myassignmenthelp.com Review We knew it right from the start. All these claims are exaggerated. No one can guarantee a grade, since it's at your professor's discretion. They can guarantee to deliver a unique, high-quality paper by your deadline. But a guaranteed grade is shady business.

Proessaywriting.com

Myassignmenthelp.com Review Myassignmenthelp.com Review My assignment help won a few points on this myassignmenthelp review based on the fact that they have deadlines that suit urgent (0-6 hours) and non-urgent jobs (30-40 days). However, I can't help wondering how reliable they are, especially when my 3-day deadline order was delivered 12 hours late.
