

Math Unit 1 Day 2

Using the Number Line Model in Subtraction

Learning Targets:

I can add and subtract up to 1,000

I can use the number line model for subtraction problems.

Gist:

Use a number line

Directions:

Either print out this page or do your work on notebook paper. Time limit is 18 minutes after you watch the lesson and try the sample problems for the work, then record an explanation on [flipgrid](#).

[View the lesson:](#)

Sample Problems

15-8

234 - 106

Now do these problems yourself, Pick one of the problems you solved and explain what you did on [flipgrid](#)

9-4

$16 - 7$

$160 - 70$

$164 - 72$

$453 - 166$

If you still have time, make up problems of your own and show how to solve them with a number line.
