

Judging Criteria

Team Name:

Points Possible	Item	Points Assigned
15	Proof of Concept/Prototype - Presentable design that convincingly demonstrates function - Adds value over existing solutions in identified market	
15	Design - Unique and original - Injury site and device platform defined - Device addresses specific patient need - Discreet and easy to travel with	
10	Feasibility/Ease of Use - Manufacturability (materials, processes) and costs are considered - Straightforward usability, can be used with minimal/no assistance - Personalizable	
10	Presentation - Communicated value of device in a compelling way - Follows a logical flow, starting with problem addressed - Presents information clearly and concisely	
Total Score		/50
