

# High Five Friday

## Take Notice Activity

### LITTLE LONG LOOKS

Look out the window for one minute and count how many colours you can see.

Find a bug and look at it for one minute. Did you notice anything at the end that you didn't see at the started to look at it?

Find a plant. How many leaves does it have? How many petals? How many colours?  
Does it smell?

Watch the clouds for one minute - do they change shape? What do they look like?

Clouds are very creative - they like to make ish pictures- can you see any clouds looking like a dog-ish? An ice cream-ish?
