MAIN SEGMENT 1: UNSUSTAINABLE [10-15 minutes]

- Unsustainably high:

- Gambi:

- Jake Debrusk (LW, RW - 41%)

- 75% IPP and 18% shooting over last 10GP
 - 14% oiSH as well
 - PP% increasing which is awesome

- Kailer Yamamoto (RW - 15%)

- 44% shooting over last 8 GP
 - 15.2% oiSH and 73% IPP
 - Mediocre shot pace and no PP time

- Matt Niskanen (D - 25%)

- 15% on ice shooting, 63% IPP and 18% shooting over last 4 games

- Lars Eller (C - 17%)

- 17% shooting over last 11
 - IPP of 90% with fine oiSH%
 - Shots are up

- Unsustainably low:

- Gambi:

- Tyler Seguin (C, RW - 99%)

- Shot pace is looking better
 - 0% shooting over last 10 games, 6% on season!

- IPP is low at 64% over last 10. Should be more like 72-74
- Evander Kane (LW - 90%)
 - His last 14 days have been brutal
 - Probably a 60 point pace guy on this sharks team
 - There's peripheral upside at least
- Sustainably high:
 - Gambi:
 - Brayden Point (C - 94%)
 - 9% shooting over last 12
 - 17% oiSH and 52% IPP
 - Back on that stacked line
 - William Nylander (C, LW, RW - 89%)
 - 16% shooting last 10
 - Shots are way up
 - Awesome PP%
 - oiSH% and IPP right in line
 - Point per game ROS
 - Teuvo Teravainen (LW, RW - 92%)
 - 12% shooting last 11 (8 on season!)
 - oiSH% fine over last 11 at 11%
 - IPP is high at 100%
- Sustainably low:
 - Gambi:
 - Claude Giroux (C, LW, RW - 97%)
 - Low IPP but fine oiSH%
 - 0% shooting over last 11
 - BUT similar to duke, what's that "fixed" pace? 55-60? Probaby not worth it.
 - Shot pace is wayyyy down.
 - 127 over last 11 GP
 - Split PP

■ Anthony Duclair (LW, RW - 43%)

- Just not worth waiting for right now.
- 0% shooting over last 10
- Shot pace still insanely high
- oiSH% and IPP are crazy low BUT what is it when it comes back? 50 point pace?

■ Thatcher Demko (G - 11%)

- With markstrom going god mode Demko is relegated to the sidelines
