

How to add Temperature Check shortcut to your iOS Home Screen

It is easy to create a quick Safari shortcut to your iPhone or iPad to access the Daily Temperature Check form.

Step 1: Launch **Safari** and navigate to **CDNIS.EDU.HK**, then click "Parent Portal"

Step 2: Login the parent portal with your Veracross username and password.

(Optional: You can save your password if this is your personal iOS device)

The screenshot shows a mobile browser interface. At the top, the status bar displays 'csl.', signal strength, Wi-Fi, time '2:26 PM', location, and 100% battery. The address bar shows 'AA' and 'accounts.veracross.com' with a refresh icon. Below the address bar is a blue circular logo featuring a stylized building. The main heading reads 'Canadian International School of Hong Kong'. There are two input fields: 'USERNAME' with a placeholder 'your veracross username' and 'PASSWORD' with a placeholder 'your veracross password'. A 'Log In' button is positioned below the password field. A link 'Can't access your account?' is located below the button. At the bottom, a footer contains 'Veracross © 2020 • Privacy Policy'. A separate grey box at the bottom of the page contains the text 'Log in to veracross.com?' and a large blue button labeled 'Use "parent01.sample"'. At the bottom of this grey box are icons for a keyboard and a key.
