Provide Greater Access to STEM Education to All Students

Harish S.

**Tutor
San Antonio Math Include**

My name is Harish Sivakumar, and I am an upcoming junior at Argyle High School. My interests lie in business and entrepreneurship alongside finance. My hobbies are playing sports and reading books. As a kid, I enjoyed learning math due to its straightforward nature and practicality. I found it intriguing that there are many approaches to the same answer. However, there may be some others that don't find it as indulgent as me. My goal is to see if I can change that while also educating you on the course. Looking forward to interacting and teaching you guys!
