## **"Don't Screw This Up:"**

Literally every piece of paper in this entire thing was a distorted/cropped/recolored version of this beautiful scroll by ziggrauglurr. I'm not even kidding.

EDIT: It seems to have disappeared :(

DOUBLE EDIT: Malandy found it!! Fixed!

Assorted Wonderbolts titles: Felix Titling

Spitfire's handwriting: Signerica by Måns Grebäck (this is my favorite font of all of them, I think. It fits her personality so well.)

Surprise's handwriting: KG Mullally by Kimberly Geswein (Plus a thousand blessings to her for her phenomenal explanation of personal vs private use in her FAQ's)

Headquarters Type: OldNewspaperTypes by Manfred Klein

Tight Ship's handwriting: DJB About a Boy by Darcy Baldwin Fonts

## **"Day 1: Taking Initiative:"**

Have you favorited the totally awesome Wonderbolts logo by AU-Spitfire yet?

Headquarters Typewriting: OldNewspaperTypes by Manfred Klein

Spitfire's typewriting (as used by Fleetfoot): Truetyewriter PolyG10TT by Sam T

Fleetfoot's handwriting (I just realized it should be hoofwriting, but I'm not changing all the other ones. sue me.): Seriously by Bythebutterfly (IT'S SO CUTE)

Fleetfoot's typewriting: OldNewspaperTypes by Manfred Klein

alien13029 made the vector of the train, found on the train ticket, which makes the ticket about 100% cooler:

<http://alien13029.deviantart.com/art/Train-S2-Poster-333769331>

All fonts on the train ticket are default Microsoft fonty fonts.

The paper clip is pretty much my entire artistic contribution to this project. Totally freehanded it. No biggie.

The package from Fast Clip is the only document in this chapter that isn't made from that scroll by ziggrrauglurr. Three cheers for PowerPoint's Insert>Shapes.

<http://ziggrrauglurr.deviantart.com/art/MLP-Frontal-Scroll-Empty-37941992>

Fast Clip's ridiculously perfect hoofwriting is IrisUPC

Fleetfoot's pimped out stationery letterhead logo thingy is a super edited version of the same lovely vector from the cover art: roxy-cream

<http://roxy-cream.deviantart.com/art/Fleet-Foot-428588162>

Fleetfoot's titling font: American Captain by the Fontry (*I can feel the patriotism surging!*)

Fancy Pants' fancy unicorn writing: Nyala

Fancy Pants' even more fancy signature: Respective Slanted by Måns Grebäck

Fast Clip's normal writing: Bell MT

High Winds' mouthwriting is KG Love Somebody by the talented Kimberly Geswein.

## **“Day 2: Outsourcing”**

I really really like that Wonderbolts logo by AU-Spitfire. Can you tell?

<http://au-spitfire.deviantart.com/art/Wonderbolts-Logo-297963643>

Crescent Moon's writing: The Great Escape by Kimberly Geswein

Yeah so Soarin can't draw and neither can I, which is why I traced over (and embellished) this nice Applejack vector from Proenix

<http://proenix.deviantart.com/art/Applejack-290315548>

The Fleetfoot picture I traced over was a snapshot from MLP:FiM, "Rainbow Falls," which I simultaneously loved and hated. I *might* have extended her jaw a little bit.

Speaking of Soarin, I know most everybody (including me) writes him as being Spitfire's deputy, but when I first watched Rainbow Falls I was like "there is no way that guy is her second-in-command. Fleetfoot is totally her lieutenant, JUST LOOK AT THE TWO OF THEM" and thus the seeds for this sad excuse of literature were sown.

Probably-not-the-deputy Soarin's hoofwriting: KG Sunny Afternoon by Kimberly Geswein

Spitfire's diary label:

[http://www.4shared.com/all-images/UINt66VT/Simple\\_Label\\_Frames.html?locale=ar](http://www.4shared.com/all-images/UINt66VT/Simple_Label_Frames.html?locale=ar)

Book vector made by the talented MisterAibo:

<http://misteraibo.deviantart.com/art/Vector-Book-Cover-293115601>

I think the the diary label is Times New Roman. Somepony save me. At this point, I'm pretty sure my DNA is coded in Times New Roman, 12 pt. font.

The inside of Spitfire's diary is a mishmash of rectangles and recolored, cropped versions of that scroll. You aren't supposed to be able to read the writing; don't worry. School for Gifted Unicorns' Celestia embellishment comes from Death-of-all's beautiful design, which you can order on a t-shirt on redbubble!

<http://death-of-all.deviantart.com/art/Princess-Celestia-s-School-for-Gifted-Unicorns-313563200>

School titling: Castellar

Smarty Pants' writing: Century Schoolbook

Smarty Pants' signature is Edwardian Script ITC, because default fonts deserve some love.

Headcanon states that Smarty Pants and Fancy Pants are siblings.

ATTENTION: is Stencil, and I can't find its name on a folder in my downloads, so it appears to be a default font.

More Wonderbolt Felix Titling

The typewriting is Truetyewriter PolyG10TT by Sam T

The excerpt from Wonderbolts Manual 36-2205 is typed in Euphemia.

### **“Day 3: Thou Hadst But One Duty”**

I quadruple dog dare someone to do a dramatic reading of this entire thing.

There's not much new material in this chapter.

Tender Greens' name is ripped off from this super-organic, really delicious restaurant I ate at in California. 10/10 would recommend. Tender Greens the *pony*'s writing is MV Boli, which really doesn't seem like a default font, but it is.

Ah, yes. The ESS stuff.

ESS Form ID font: Agency FB

ESS Titling: Aharoni

ESS logo is a recolored version of this stunning Solar Empire Emblem by EMkay-MLP:

<http://emkay-mlp.deviantart.com/art/Solar-Empire-Emblem-291749675>

ESS Surveillance text: HURTMOLD\_ by Billy Argel

Operative 43's writing: DejaVu Sans Light

This is also Agent 58's writing font, because everything is standardized in secret government agencies, including hoof/mouthwriting. Right?

Foal Free Press logo taken and recolored from this neat blank paper by MLP-Scribbles:

I actually made the rainbows myself, and slapped them onto this lovely background by MLP-Vector-Collabs:

Title of article: Eras Demi ITC

Subtitle: Estrangelo Edessa

Article type: Eras Light ITC

Wave Chill's super chill hoofwriting: Architects Daughter by Kimberly Geswein

Spitfire's promotion scroll uses the same fake calligraphy as her summons: Old English

Text MT

Also same cutie mark from BlackGryph0n:

<http://blackgryph0n.deviantart.com/art/Princess-Celestia-Cutie-Mark-209185555>

Best Pony's name is written in Copperplate Gothic Bold, with more Felix Titling underneath.

Again, Soarin's writing is KG Mullally by Kimberly Geswein

Fun fact: This is actually a shipfic. It ships Fleetfoot with lots of bad decisions.

## **"You Screwed This Up"**

Nothing new here.

Fun Fact #2: I began piecing this together back in late September, primarily as a way of cheering myself up. I was reading *Fallout: Equestria* for the very first time (I'd played Bethesda's *Elder Scrolls* series thoroughly, but never their *Fallout* line), and it was brutally mauling my feels—it's just so *tragic*. I needed something lighthearted and cheerful to look at, and I've always enjoyed playing around with Microsoft Powerpoint, so the format of this story just drifted into place.

As a brief recap:

The papers are edited versions of the scroll by ziggrrauglurr

<http://ziggrrauglurr.deviantart.com/art/MLP-Frontal-Scroll-Empty-37941992>

Fleet's typewriting is OldNewspaperTypes by Manfred Klein

Fleet's girly hoofwriting is Seriously by bythebutterfly

Let the record show that I really love this logo by AU-Spitfire because it is perfect:

<http://au-spitfire.deviantart.com/art/Wonderbolts-Logo-29796364>

I'd like to give a huge thank-you to the dashing [Ponky](#) for prereading this thing. He's been an immense help in polishing off the edges.
