Custom OT USUM Wild Shiny Service Details
(Note: This service is done using RNG manipulation)

Service details:
- I will hunt you any shiny pokemon catchable in Ultra Sun or Ultra Moon with custom OT
    - All saves used for this service will be managed with Checkpoint
- **What I can RNG**
    - **All Pokemon caught through standard wild encounters in US/UM**
        - Additionally, I can catch a pre-evolution and then evolve it to whatever stage you'd like
    - [Island Scan wild Pokemon](#) (Make sure you're looking at US/UM encounter tables)
        - Note: Date manipulation does not work on island scan pokemon, so if you want one of them, I will be unable to catch it until the day that it appears.
    - Repeatable static encounters (Fossils)
        - I can farm multiples of all fossil items thanks to Poke Pelago
- **What I cannot RNG**
    - Pokemon exclusive to Fishing
    - Pokemon exclusive to Shaking grass spots/Berry trees
    - Poke Pelago Shinies
    - Pokemon exclusive to SOS battles
- **Photo proof of encounter, capture, and RNG will be provided for each pokemon.**
- For each request, you can choose:
    - Pokemon (including form if multiple exist)
    - Capture ball (this includes apriballs)
    - Nature
    - Ability
    - Shiny Type (Star/Square)
- Turnaround time varies based on the specificity of each pokemon and will be discussed during the trade.
- **Trades will take place either through HOME, SwSh, SV, or will be transferred directly from my Pokemon Bank to your Pokemon HOME.**
