

Woowa Google Form Addon

A. Otomatis Install

1. Click [Woowa Google Form](#) and click Install

B. Manual Install

1. Create a Google Form with whatsapp phone number field, go to setting (3 dots) on the right up corner, and click **Script Editor**
2. Make sure for whatsapp number field, it use 'short-answer text'

The image shows a Google Form with two fields. The first field is labeled 'Name:' and has a 'Short answer text' input type. The second field is labeled 'Phone number (contoh:628xxx) *' and also has a 'Short answer text' input type. A red arrow points to the 'Short answer text' label for the phone number field.

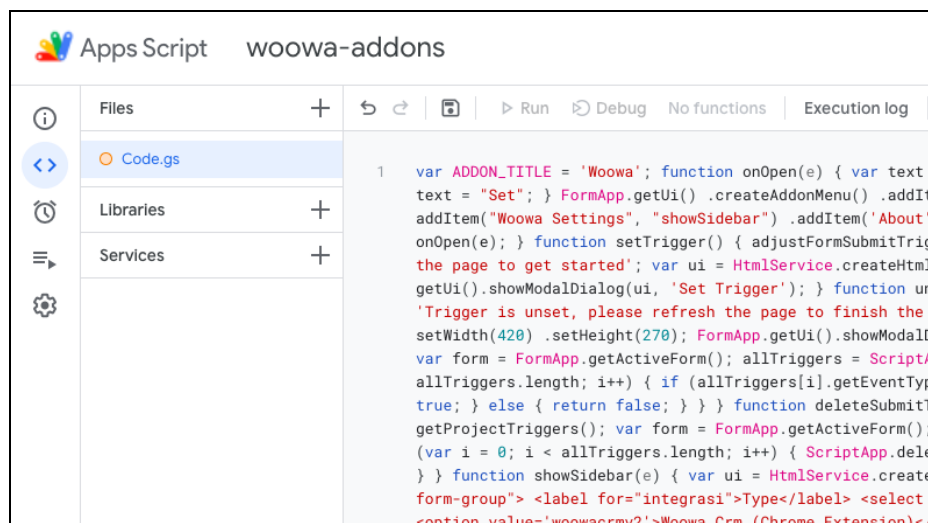

3. Open this link: [code.txt](#)
4. Select all the code (ctrl+A) and Copy it (ctrl+C):

```

var ADDON_TITLE = 'Woowa'; function onOpen(e) { var text = ''; if (cekTrigger()) { text = 'Unset';
} else { text = "Set"; } FormApp.getUi().createAddonMenu().addItem(text+" Trigger",
text.toLowerCase()+"Trigger").addItem("Woowa Settings", "showSidebar").addItem('About',
'showAbout').addToUi(); } function onInstall(e) { onOpen(e); } function setTrigger() {
adjustFormSubmitTrigger(); var text = 'Trigger is ready, please refresh the page to get started';
var ui = HtmlService.createHtmlOutput(text).setWidth(420).setHeight(270);
FormApp.getUi().showModalDialog(ui, 'Set Trigger'); } function unsetTrigger() {
deleteSubmitTrigger(); var text = 'Trigger is unset, please refresh the page to finish the
process'; var ui = HtmlService.createHtmlOutput(text).setWidth(420).setHeight(270);
FormApp.getUi().showModalDialog(ui, 'Unset Trigger'); } function cekTrigger() { var form =
FormApp.getActiveForm(); allTriggers = ScriptApp.getProjectTriggers(form); for (var i = 0; i <
allTriggers.length; i++) { if (allTriggers[i].getEventType() == ScriptApp.EventType.ON_FORM_SUBMIT)
{ return true; } else { return false; } } } function deleteSubmitTrigger() { var allTriggers =
ScriptApp.getProjectTriggers(); var form = FormApp.getActiveForm(); allTriggers =
ScriptApp.getProjectTriggers(form); for (var i = 0; i < allTriggers.length; i++) {
ScriptApp.deleteTrigger(allTriggers[i]); Logger.log(allTriggers[i]); } } function showSidebar(e) {
var ui = HtmlService.createTemplate("<div class='sidebar'> <div class='block form-group'> <label
for='integrasi'>Type</label> <select id='integrasi'> <option value=''>-- Select --</option> <option
value='woowacrmv2'>Woowa Crm (Chrome Extension)</option> <option value='woowaeco'>Woowa
Eco</option> <option value='woowandroidv1'>Woowandroid v1</option> <option
value='woowandroidv2'>Woowandroid v2</option> </select> </div> <div class='form-group'> <label
for='no_wa'>No Wa</label> <select id='no_wa'> <option value=''>-- Select --</option> </select>
</div> <div class='form-group'> <label for='key'>Token</label> <input type='text' id='key'
name='key' placeholder='Ex: db63f52c1a00d33cf143524083dd3xxx...'> </div> <div class='form-group'>
<label for='template'>Template</label> <textarea name='template' id='template' rows='9'
placeholder='Ex: hi, [Name] and your number : [No Wa]...'></textarea> </div> <div class='form-
group' id='button-bar' style='margin: 15px 0 5px 0;'> <button class='action' id='save'>Save</button>
</div> </div> <link rel='stylesheet' href='https://ssl.gstatic.com/docs/script/css/add-ons1.css'>
</script src='//ajax.googleapis.com/ajax/libs/jquery/1.10.1/jquery.min.js'></script> <style> .form-

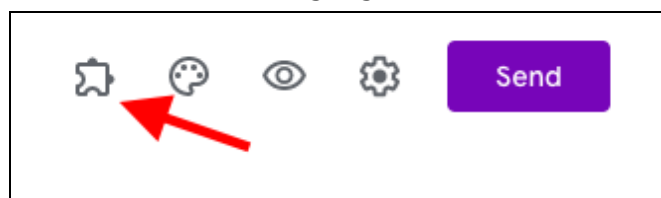

```

6. Paste in script editor, and Save:

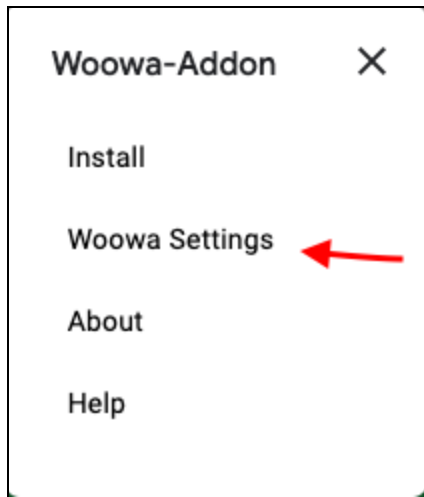

C. How To Use

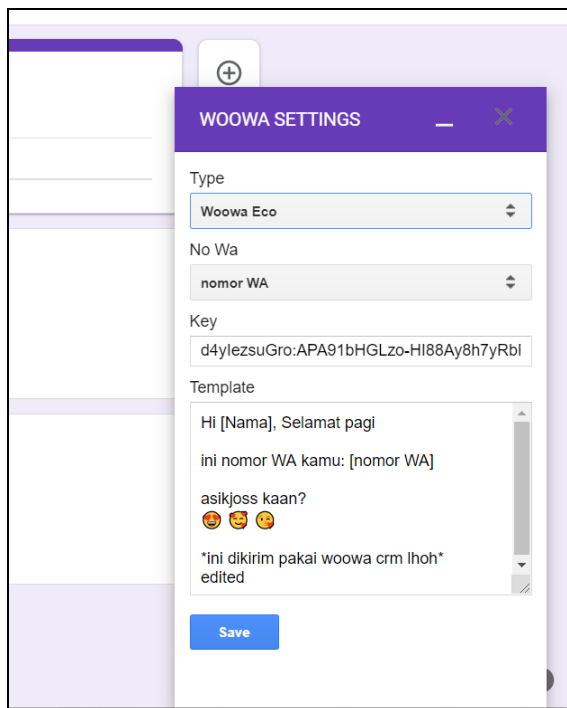

1. After install woowa google form addon click icon Add-ons

2. After that Click **Woowa Settings** to open the sidebar

3. Than Adjust the setup woowa type and set template message.

3. Now you can start setting your woowa add-ons,

-**Type** is the services you use in Woowa (international users for now only available Woowa eco, Indonesian already have Woowandroid beta and CRM beta).

-**No WA** is the form name which contains whatsapp destination number.

-**Key/CS-ID/Device-ID/Device-Key** is the code you can get from woowa dashboard/woowandroid app/woowa-CRM.

Woowandroid Beta

demo.woo-wa.com

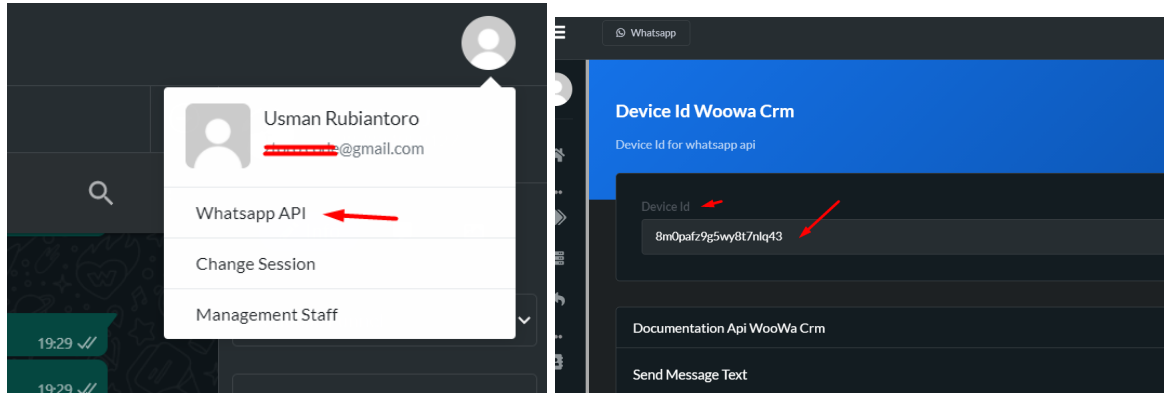

085974568372

Yudha

STATUS

DIRECT CHAT

c) **Device ID for Woowa CRM user** you can get from here:

- **Template** is the message you want to send to destination number or person who fill your form

In Template, there are 2 important elements:

- **Form variable**: just copy paste the question name and put it in [], for example in the form above [Name] to call their name in template, [Phone number] to call their phone number in template.

- **Spin-Text**: you can randomize every sentences by put the synonym in {a|b|c}, for example {Hi|Heloooo|Good morning|} it will appear in 3 variation for every person who fill your form:

- person A will get: Hi Yudha
- person B will get: Heloooo Lusi
- person C will get: Good morning James

*this is important feature because you need to make your messages as 'human' as possible so will decrease the risk of your whatsapp sender number be banned

There are 2 versions of the woowa addon

- [latestv1.txt](#) lite version send wa to client only
- [latestv2.txt](#) send wa to client & admin
