

Privacy Policy for Salesforce Environment Indicator

Introduction

The **Salesforce Environment Indicator** Chrome extension does not collect, store, or process any personal or sensitive user data. This extension operates entirely within your browser and relies solely on the URL of the currently active tab to determine the Salesforce environment. No user information is transmitted to external servers or shared with third parties.

Data Collection

No data is collected by this extension. The extension does not use cookies, nor does it require any form of authentication or access to user data.

Permissions

This extension requests permission to access the active tab's URL solely to identify if it is a Salesforce environment. These permissions are strictly for functionality and are not used to access or process any personal information.

Contact Information

If you have any questions regarding this privacy policy or the functionality of the extension, please contact us at trishul.a.shah@gmail.com
