

This document is populated with a list of suggested NCUC Sessions for ICANN75. It is a working document on policy discussion session NCUC members will like to host during

1.ICANN Public Comment: Initial Report on Transfer Policy Review - Phase 1(a)

2.Non Commercial perspective on Closed Generics

3.Non Commercial New gTLDs Applicant Support (building on the work of the SubPro Working Group and new initiatives to move forward by GNSO Council. Questions include: who are the “outside experts” that ICANN should engage to help frame and write the Applicant Support process? We are a unique voice in this process because our members include organizations from the Global South, indigenous communities (in Global South and Global North), minority communities, and IDN experts. We should be able to provide special input on this very important matter and a path to solving this long standing problem in ICANN.)

4.Human Right Impact Assessment for SSAD and ODA

5.ICANN.org Policy & NCUC PDP improved engagement opportunity
