## **VP of Finance Campaign Platform**

I am rerunning for the position of Vice President of Finance and Budgets. In my time as VP, I implemented initiatives to streamline communication between the Budget Committee and the student body like Budget Committee Office Hours and a Budget FAQ. In pursuit of even more transparency, I would like to publish weekly reports regarding the status of available funding and each week's Weekly Appeal outcomes. This would ensure that the entire Fordham community will be able to view the same documents the committee votes on every single week. I plan to continue working to make the distribution of the Student Activities Fees more equitable to all student clubs and organizations, starting with the Budget Committee Guidelines. While I have created a subcommittee this semester to revisit the guidelines, I believe that this is a document that should often be reviewed to ensure that clubs can be distributed funds fairly.

I am centering my campaign around equity and communication. I understand that these are two areas where the Budget Committee has lacked in the past, and I want to ensure that the student and club voices are heard and acknowledged. I believe that it's time to start moving the Budget Committee in the right direction, and that begins by listening to the Fordham community. I plan to be a resource to all as the VP of Finance, the Chairman of the Budget Committee, and as a Fordham student.
