You may also respond to questions via an anonymous Google form if you prefer.

What goals has the school prioritized over the past 3-5 years?

Are those goals the same as the faculty would identify? What are other areas from the standards which the faculty might prioritize?

From a whole school perspective, what is the faculty/staff most proud of? What are they most concerned about with respect to the standards?

How has JSRHS changed, positively and/or negatively, (related to the Standards) since the last accreditation visit?
Review the recommendations of the last visiting team. Are any of those items still a priority? Why or why not?
To what extent have the recommendations from the previous NEASC report been integrated into the JSRHS Strategic Plan?
