

This document covers the privacy policy for the android app “Find Qibla Pro”, by Euphrates Media, available on Google Play store:

https://play.google.com/store/apps/details?id=com.euphratesmedia.findqibla_arabic

This application provides users with correct direction of Qibla, using the device’s location as input data.

- This application does not collect, store, or share with any 3rd party entity, any form of *personally identifiable information* (PII).
- The app gets permission to access location, to be able to calculate Qibla direction (which is calculated based on user’s location and location of Mecca).
- The app uses check network connection *only* to get assistance in quickly acquiring the location from the cellular data network or the WiFi antenna. No data communication is done over the network.
- The app uses phone’s status, to get the devices direction and orientation to be able to calculate and show the correct Qibla heading relative to the device.
- **None** of the data used, and mentioned above, i.e. location, network connectivity, ... are stored, or passed via network or shared with any 3rd party API.
