

Quarterly and Retroactive Compensation Request for Astar Ecosystem Agent Contributions

Max_eth_healthy

1) **Short Description** :

I am Max, "Max_eth_healthy", an Astar Network Ecosystem General Agent.

I am writing to request retroactive funding that recognizes the value and impact of my activities and contributions to the Astar Network ecosystem during my tenure from December 2024 to March 2025.

I specialized in creating engaging content for Astar Network.
I focus on educating the community about Astar, its ecosystem, and Soneium.

2) **Agent Information :**

Telegram Username: @max_eth_healthy

Discord Username: max.eth.healthy

X User name: @max_eth_healthy

Region Represented: France

Agent Program Type: General Agent

4) **Contribution Period :**

This proposal seeks retroactive funding for my activities as an Astar Ecosystem Agent over the past four months (December 2024, January 2025, February 2025, and March 2025).

It aligns with the criteria set by the Astar Foundation under the Astar Ecosystem Agent Program 2.5.

It also includes activities within Soneium that directly impact the Astar Network community.

Month	Activities
December 2024	• Community Management (CM) • Governance & Project Engagement (GOV) • Social Media Engagement (SM) • Content Creation (CC) • Events management (EM)
January 2025	
February 2025	
March 2025	

5) **Summary of Contributions :**

- **Community Management:** I focus on content creation, I'm not very active on community management. The French Telegram does not require much of my input either. And the discord is already well managed by the different moderator and teams

- **Governance & Project Engagement:** Participating in governance discussions, and maintaining communication with dApp teams.
- **Social Media Engagement:** Creating content, organizing twitter space, join twitter space with other Astar and Soneium projects, promoting ecosystem updates, and strengthening Astar's online presence.
- **Content Creation:** Producing high-quality educational and promotional materials to boost awareness and adoption of Astar and its projects.
- **Events management:** I went to NFT Paris, introducing myself as Astar Ambassador.

Soneium Minato recently joined the cross-chain revolution through ERC-7683.

What are the benefits?

Users: Smoother trades and fewer asset splits.

Developers: Flexible tools and broader multi-chain reach.

Making Web3 mainstream isn't easy, but steps like these pave the way.

The next phase of Astar starts **now**.

Astar Surge went live a few days ago,

If you're a **\$ASTR** holder and want to make your **\$ASTR** work for you, pay close attention...

You can deposit into one of these:

- ◆ @Yay_Global
- ◆ @sakefinance
- ◆ @BankUntitled
- ◆ @sonex_so
- ◆ @kyofinance

By doing so, you will:

- ☞ *Get an APR on your bag like you would normally do*
- ☞ *Earn points that unlock access to tokens during their TGE.*

That's it, simple.

It's a chance to strengthen the ecosystem. Deposits today will help drive Astar's transition to Soneium.

Ready to start?

Time to bring ASTR to Aave on @soneium

Proposal to deploy @aave on Sony's chain, Soneium bringing Aave closer to consumers.

MingshiS

 16m

[TEMP CHECK] Deploy Aave on Soneium

Author: Mingshi S.

Date: 2025-02-10

Summary

This Temperature Check advocates for the deployment of Aave on [Soneium](#), an Ethereum L2 developed by Sony Block Solutions Labs (a joint venture between [Sony Group Corporation](#) and [Startale Group](#)). The proposal aims to provide general background information to gauge the community's interest in the opportunity to deploy Aave V3 on Soneium.

This deployment proposal is an opportunity to tap into a consumer-focused Ethereum L2 and utilize Sony's distribution channels and access to real-world consumers. Built with OP Stack, Soneium offers a scalable, low-cost, and highly interoperable infrastructure for DeFi protocols. The deployment would integrate Aave into an Ethereum L2 designed for mainstream adoption, potentially tapping into Sony's user base and an upcoming dynamic ecosystem of DeFi, gaming, NFTs, RWAs, and entertainment applications.

The proposal includes an ecosystem-wide liquidity incentive campaign, targeting a 7-figure USD commitment (100,000,000 [ASTR](#) ) to support DeFi protocols, including Aave, to bootstrap liquidity on Soneium. Soneium is also willing to integrate and increase the adoption of GHO stablecoin in its ecosystem, especially for future real-world-focused use cases.

Want to earn while supporting Web3 innovation ?

@AstarNetwork's dApp Staking upgrades the game.

It funds developers and rewards users, creating a strong and sustainable blockchain ecosystem.

Here's how it works:

? How dApp Staking Works

- ◆ Astar supports EVM & WebAssembly (Wasm), making it easy to build cross-chain dApps.
- ◆ Users stake ASTR tokens on dApps they believe in.
- ◆ Developers get funding to build, while users earn passive rewards.
- ◆ This process strengthens Astar by backing quality projects.

| Why It Matters

- ◆ Sustainable Funding – Devs receive ongoing support.
- ◆ Community-Driven Growth – Users help decide which projects thrive.
- ◆ User Rewards – Stakers earn for supporting innovation.
- ◆ Healthier Network – Stronger projects mean a more secure ecosystem.

? How to Maximize Benefits

For Stakers:

- ◆ Diversify across multiple dApps.
- ◆ Research projects before staking.
- ◆ Reinvest earnings for compounding rewards.
- ◆ Stay updated on Astar's ecosystem.

For Developers:

- ◆ Engage with the community.
- ◆ Be transparent about your project's vision.
- ◆ Offer incentives to attract more stakes.
- ◆ Promote actively to gain visibility.

dApp Staking is more than rewards—it's the future of decentralized funding. 🌱💡

Step 2 : Discover Projects

- ◆ Browse through the list of available dApps.
- ◆ Choose a project you want to support and stake your tokens in.

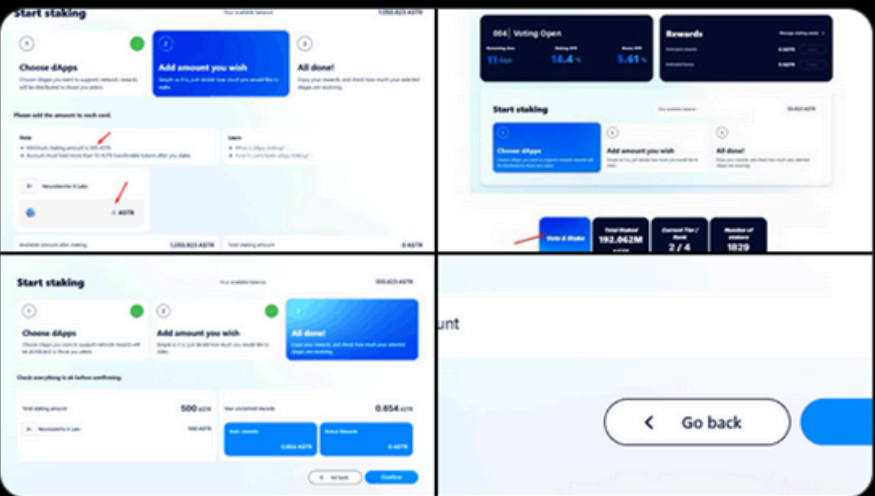

The screenshot shows the 'Discover Projects' screen. On the left is a grid of various dApp icons. On the right, a detailed view of a project's staking tiers is shown. It includes a search bar at the top, followed by 'Tier 3' and 'Tier 4' sections. Each tier lists projects with their respective rewards and thresholds.

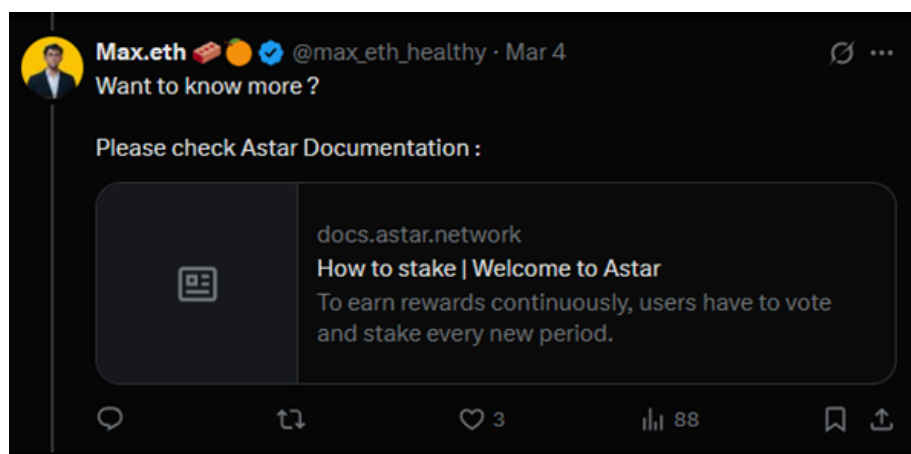

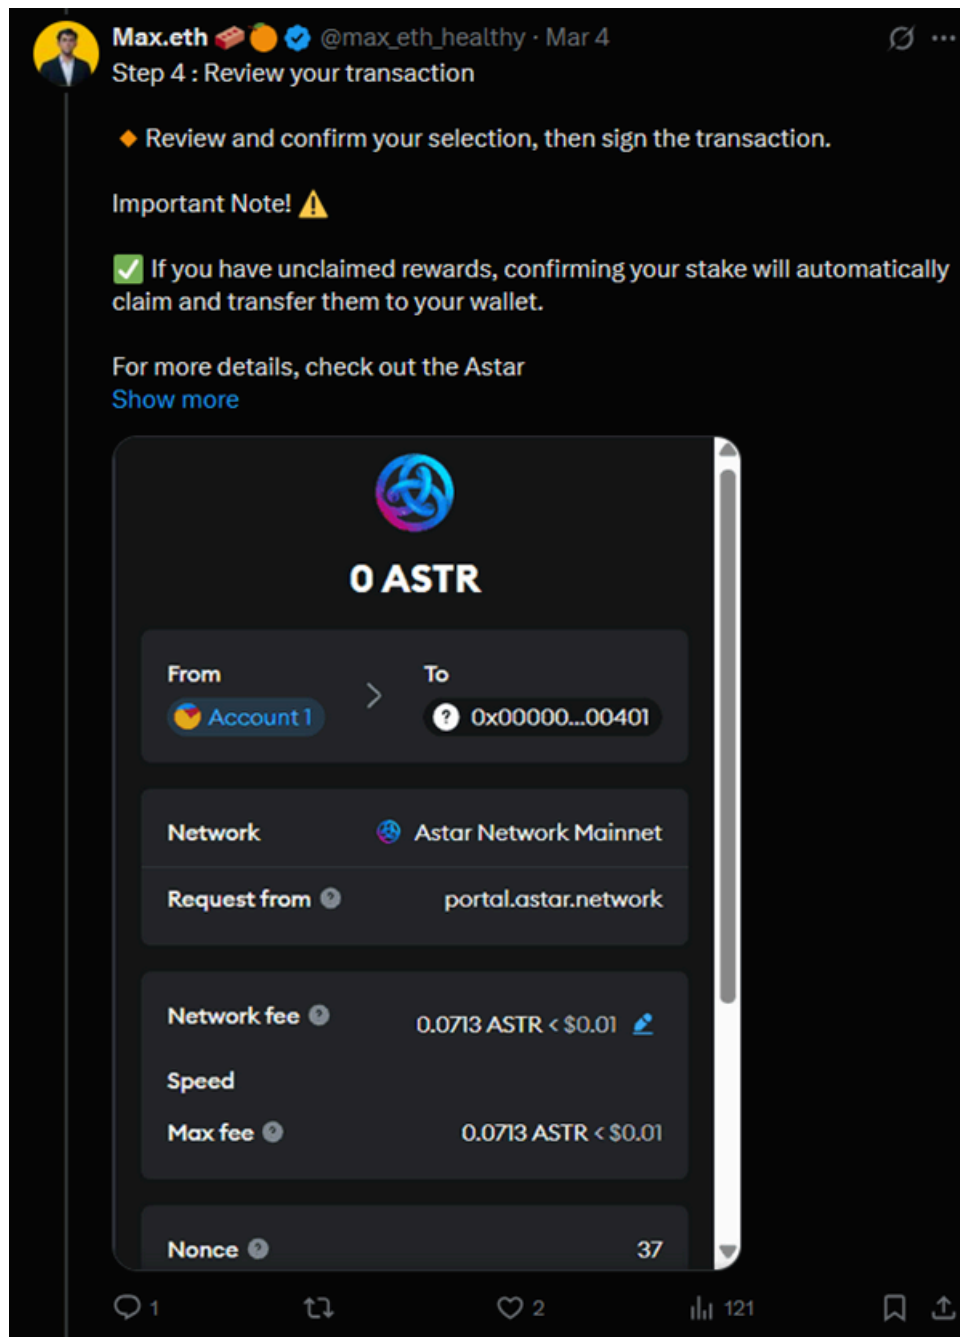

Tier	Project	Rewards per day	Threshold
Tier 3	GameDAO	80,031,634	2,122 ASTR
	Nova Wallet	56,741,902	22,287,819 ASTR
	Astar Degens DAO	53,301,827	
	ArtbSwap	35,559,394	
	Airlyft One	33,156,326	
Tier 4

Step 3 : Vote & Stake

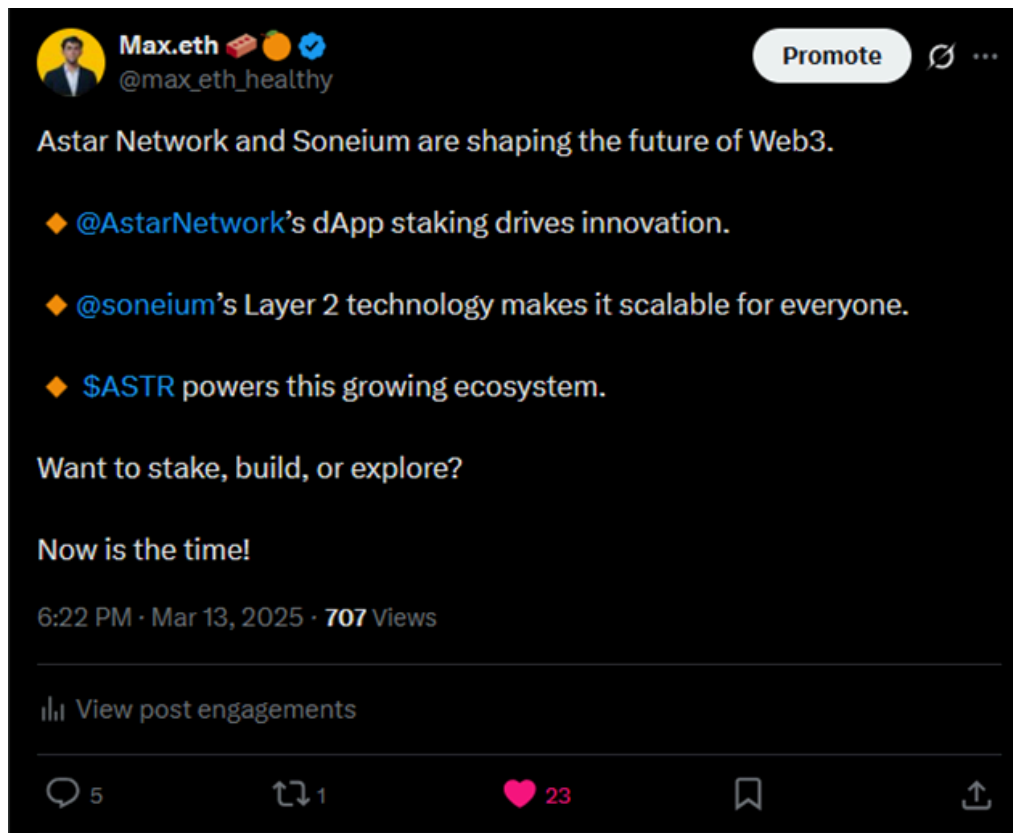

- ◆ On the dApp Staking page, click Choose dApp(s).
- ◆ Enter the amount you wish to stake (Minimum: 500 tokens, check each dApp's requirement).
- ◆ Click Confirm and then Next.

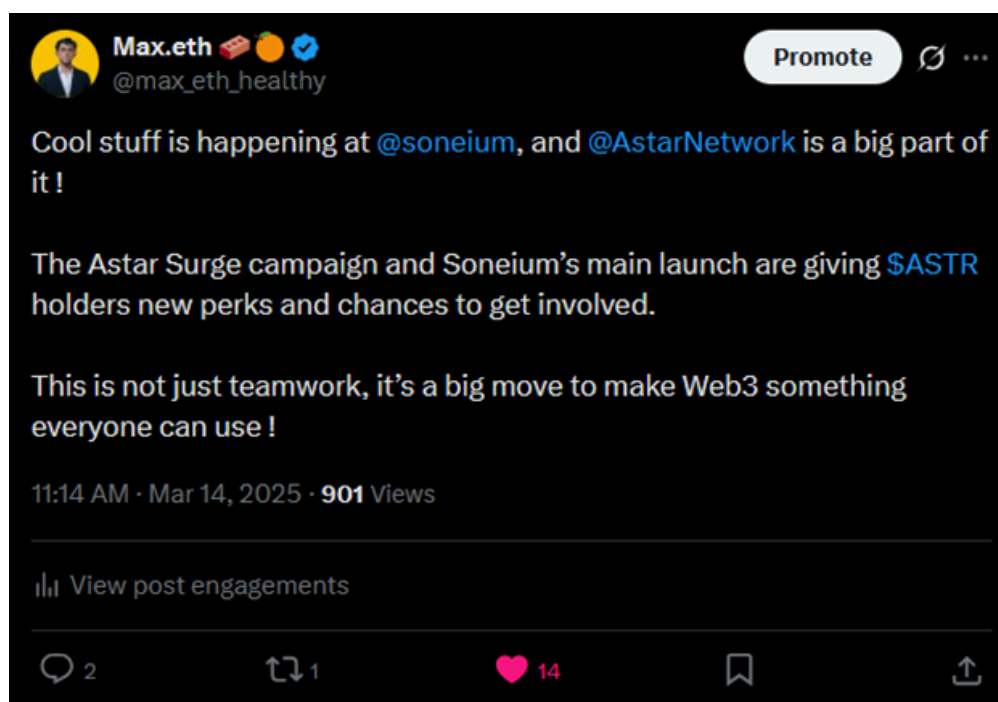

The screenshot shows the 'Start staking' process. The top part shows the 'Choose dApps' screen with a list of projects and a 'Choose dApp(s)' button. The bottom part shows the 'Start staking' confirmation screen with a 'Start staking' button and a 'Go back' button. The interface includes a progress bar and a 'Confirm' button.

Why let your crypto sit idle when it can work for you ?

[@neemofinance](#) is transforming staking in Web3.

As a liquid staking protocol on [@AstarNetwork](#) and [@soneium](#), it lets you earn rewards while keeping your assets flexible.

📌 Here's why it's a game-changer 📌

- ♦ **WHAT IS [@neemofinance](#) ?**
- 🔹 A non-custodial liquid staking protocol for Astar and Soneium.
- 🔹 Stake [\\$ASTR](#) or [\\$ETH](#) and receive [nsASTR](#) or [nrETH](#).
- 🔹 Keep assets liquid while earning staking rewards.
- 🔹 No lockups. No limits. Just flexibility.

- ♦ **HOW IT WORKS**
- 🔹 Stake [\\$ASTR](#) via [@neemofinance](#) to support dApps.
- 🔹 Receive [nsASTR](#), a yield-bearing token for DeFi.
- 🔹 Earn staking rewards (avg. 18% APR) + loyalty bonuses (up to 20% extra).
- 🔹 Amplify yields on Soneium's DeFi platforms.

- ♦ **WHY [@soneium](#) MATTERS**
- 🔹 Astar's zkEVM transitioned into Soneium, creating a seamless L2 connection.
- 🔹 Stake ETH for [nrETH](#) or [ASTR](#) for [nsASTR](#) and access fast, low-cost DeFi.
- 🔹 Backed by [@Sony](#) vision for Web3, making staking scalable.

- ♦ **BIG MOVES IN 2025**
- 🔹 Astar Contribution Score (ACS) campaign launched on Feb 20, 2025.
- 🔹 Stake with [@neemofinance](#) & get a 1.1x ACS multiplier.
- 🔹 Partner rewards from [@sakefinance](#) & [@VelodromeFi](#) (some pools hitting 1,729% APR).

- ♦ **FOR STAKERS**
- 🔹 Mint [nsASTR](#) and supply it on [@sakefinance](#) for Sake points & Neemo points.
- 🔹 Boost yields by borrowing [ASTR](#) and looping it back.
- 🔹 Earn weekly loyalty rewards (19,825 [nsASTR](#) distributed last week).

- ♦ **FOR DEVELOPERS**
- 🔹 dApp Staking fuels your project with [@neemofinance](#) support.
- 🔹 Transparent updates & a growing community (10K+ followers on X).
- 🔹 Partnerships with [@kyofinance](#) & [@QuickSwapDEX](#) expand DeFi reach.

- ♦ **THE FUTURE OF STAKING**
- 🔹 92.6M [ASTR](#) (\$6M) already staked before [nsASTR](#) launched.
- 🔹 Multi-asset staking ([nsASTR](#), [nrETH](#), more to come).
- 🔹 Deep DeFi integrations across Soneium.

💡 Your [\\$ASTR](#) has never been this productive !

Stake today : earn more, support Web3, and grow your rewards ! 🔥

EM - Event

NFT Paris – February 13-14 2025

As Astar Network's General Agent, I attended NFT Paris in February 2025 to represent Astar and engage with various projects.

6) **Requested Compensation Amount & Justification :**

The reward calculation followed the formula used by the Astar Foundation and considered the average of the last 11 months received (from January to November 2024). The base allocation is \$800 per Agent, with additional bonuses for achieving goals in activities such as CM, GOV, SM, CC, EM, BD.

What is the ASTR amount requested?

95 000 \$ASTR

ASTR price 0.033 ([EMA30 01-04-2025](#))

For any matter, please contact me, happy to talk.

7) **Future Plans :**

For the future, my strategy centers on significantly growing awareness.

My plan is to increase content creation across social media platforms — especially X posts and short articles — to help more people understand what Astar, Soneium and the vision.

At the same time, I'll try to dedicate more time to be involved in governance, sharing ideas and feedback on the forum to support the network's development.

I will continue to focus on where my strength is : quality and educational content for Astar and Soneium, and the ecosystem.
