Purcell Connector Project and Our Neighborhoods

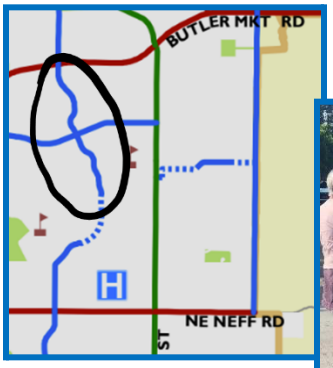

What is the Purcell Connector Project?:

- **A city project to improve north-south connectivity, safety, and traffic flow along Purcell Blvd in NE Bend.**
- **Developed in collaboration with community advocacy groups for multi-use to encourage pedestrians and cyclists.**

The Current Situation, Pre-Purcell Connector:

- **No pedestrian crosswalks or posted yield expectations for drivers.**
- **Street is narrow. No bike lanes.**
- **Property damage increases at high traffic volume times on narrow, curvy sections.**

Our Concerns:

- **Without proactive traffic calming measures, directing traffic through this residential neighborhood will increase the problems.**
- **The Purcell Connector project managers stated the City of Bend <u>does not plan to address these matters</u> during construction.**

Our Goal:

- **Petition the City of Bend to proactively plan for traffic calming measures, pedestrian crossings, and additionally greenways during the Purcell Connector project.**
- **The Bend Go Bond projects are intended to create transportation routes for all commuters, including those who walk, pedal, bus, or drive.**

You Can Help!!

<u>Join Us</u>
Join our efforts and learn about actions you can take! Follow this QRL to sign up!

<u>Petition</u>
Sign the petition to show your support for traffic calming measures on the Purcell Connector. Follow this QRL to the petition!

<u>Mountain View Neighborhood Association</u>
Focused on the needs and interests of our larger neighborhood. Go to https://mountainviewneighborhood.com/ or follow this QRL.
