

Wherry Lines (AP)

**Ссылки: [Wherry Lines: Norwich to Great Yarmouth & Lowestoft Route 2.0](#)
[Train Simulator: Wherry Lines: Norwich – Great Yarmouth & Lowestoft](#)
[Route](#) (В стиме версия маршрута 1.0, к нему придется докупить патч обновления до 2.0:**

**[Wherry Lines: Norwich to Great Yarmouth & Lowestoft Route 2.0 -
UPGRADE](#)**

Хоть маршрут и был выпущен в далеком 2016, но с тех пор получил множество обновлений, а относительно недавно еще и обзавелся версией 2.0, где было значительно увеличено качество травы, были переделаны сигнальные здания, переезды, добавлены новые объекты. Маршрут соединяет Норвич с Грит Ярмутом и Лоустофтом.

Плюсы:

- Внимание к деталям, невероятное число кастомных объектов.
- Качественная трава.
- Отлично сделанная сигнализация.
- Огромный потенциал для сценариев.

Минусы:

- Очень короткий (проезжается минут за 15-20).
- Платно.

Это отличный пример качественного дополнения от AP. Внимание к деталям, множество собственных разработок, собственный стиль. Единственный реальный минус - маршрут очень короткий, но ветки Wherry Lines воспроизведены полностью.
