

SL : THE TIME TO GET RICH IS NOW !

As predicted, 2024 is gonna be a chaotic year for the global economy. And as chaos breaks out, opportunities arise, but not for long...

Only 3 months in 2024, the Stock market ,Gold and the US dollar have all made all-time highs. Japan has come out of negative interest rates for the first time since 2007. Housing prices in the US are on the verge of decline, all in Q1 of 2024.

These events were all massive opportunities that our students were able to capitalize on and make a lot of money from. But how were they able to identify these openings and know how to conquer them ? Was it luck ?

Absolutely not, they were equipped. Their ability to quickly point out how an event is gonna affect the market, and figure out the best strategic approach possible, is what helped them make the most out of these monumental shifts.
