

# Live Notes

<b>Meeting</b>	ePIC Software & Computing
<b>Date</b>	December 6, 2023
<b>Agenda</b>	<a href="https://indico.bnl.gov/event/21488/">https://indico.bnl.gov/event/21488/</a>

## Minutes

Wouter Deconinck asked when they can start using something, possibly a new feature or tool.

Torri Jeske mentioned that it's available now but may have occasional issues when new features are added.

Wouter Deconinck suggested that people should check the pages linked under "Details..." at the benchmark run completion on eic/epic.

Sakib Rahman proposed having an information page that tracks the pipeline ID corresponding to a tagged campaign start point.

Wouter Deconinck suggested adding links to browser pages on commits or pull requests.

Torri Jeske agreed to add the pipeline ID as an HTML input parameter to the link.

Dmitry Romanov asked for elaboration on an API.

Wouter Deconinck asked a question about rule inheritance in Snakemake and shared a documentation link.

Dmitry Kalinkin expressed his experience with Snakemake.

Discussion about using Snakemake for analysis and production campaigns.

Hamlet Mkrtchyan mentioned the possibility of general changes in programming languages before 2030.
