Research Design Project-Canvas

Name / Project members	Project Title:	Date / version:

Project Timeline
How will project tasks be divided up and organized over the semester?

End State:
What is the problem(s) we are trying to solve?
What incidents, events, and conditions characterize the problem(s)?
What are the various components of the problem(s)?

Stakeholders
Who are the stakeholders of the project?
What benefits or value could the research provide to them?

Past research
What past research is relevant to the project?
What are the key findings and conclusions of the past research?

Framework
Is a model, framework, or concept relevant to the investigation?
Have you developed the model / framework or is it preexisting?

Research Problem & Research Question(s)
Capture the research problem in a single sentence.
What are the research questions that will enable me / us to solve the problem?

Methods & Data
What data will be used?
How will the data be collected and analyzed?

Objectives
What are the project objectives?
What are the personal objectives and motivations of each group member / the researcher?

Resources
What resources (people, data, equipment, authorization, etc) are needed for the project?
