8.
Custom cell implemented for listviews for :
Home , Deadline, Thread Posts, Timeline, Important Posts.

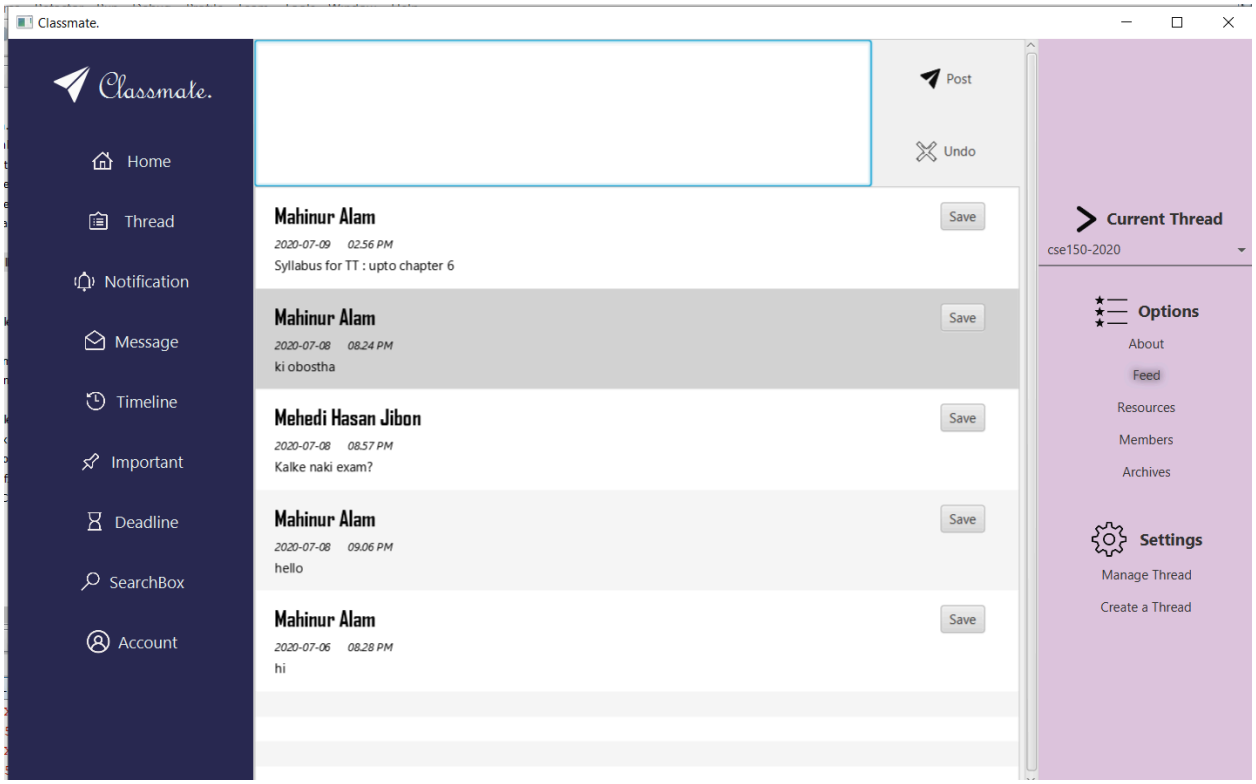

Deadline posting functionality added.

HomePage : Fetches all posts from all thread a user joined in. Timeline is also simillar.

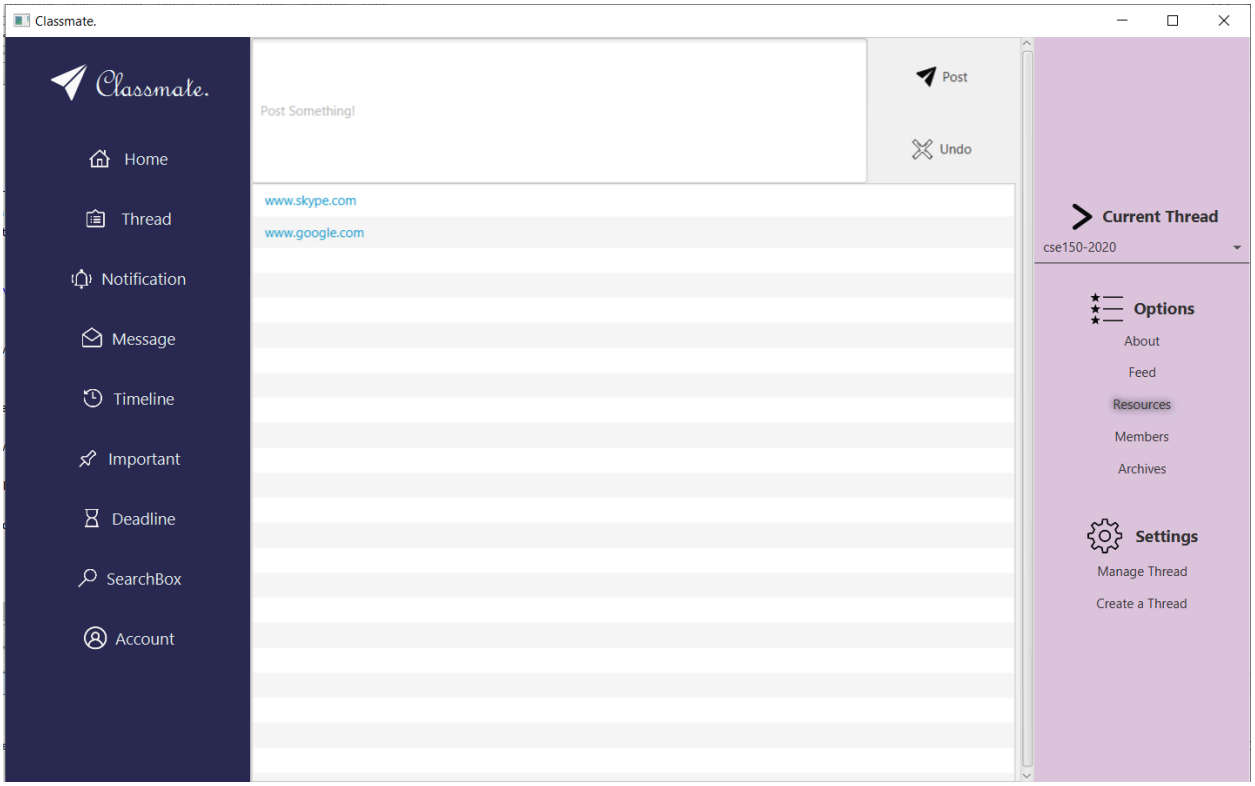

Thread Feed : fetches all posts from all user in that thread .

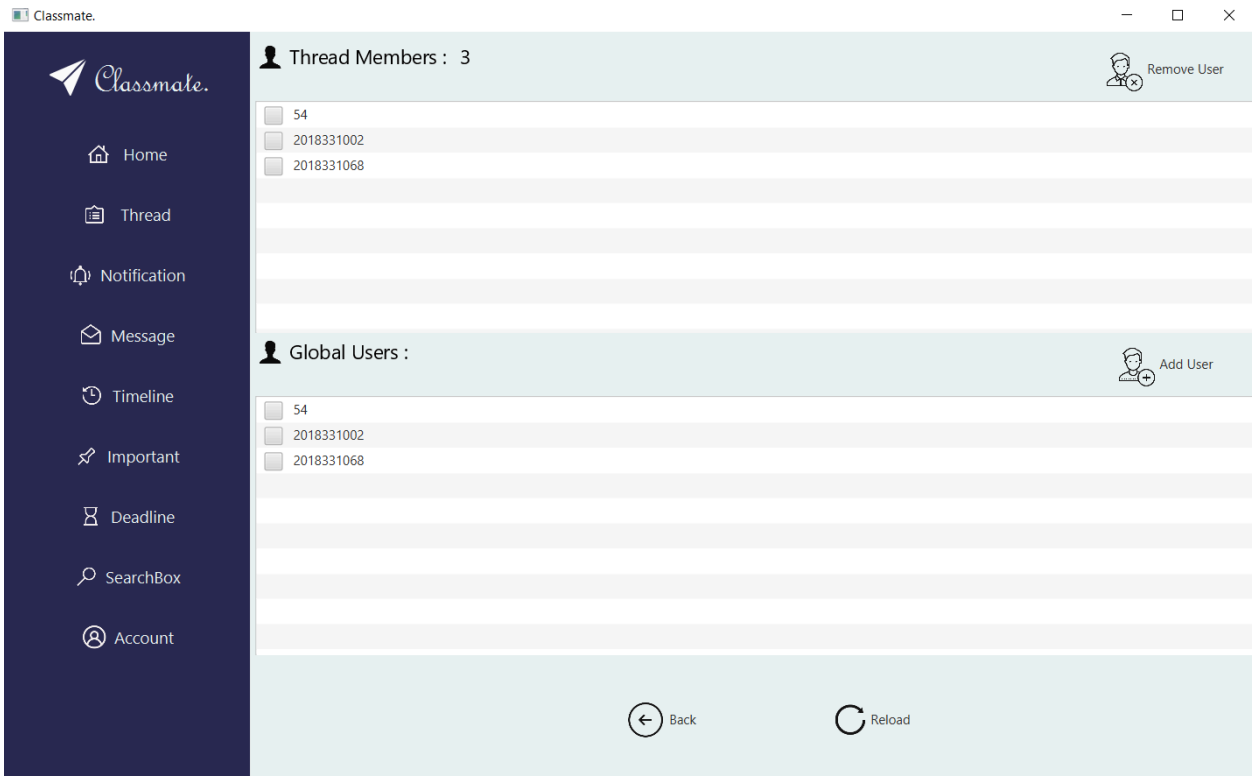

Save button will save that post to view later in **Important** segment

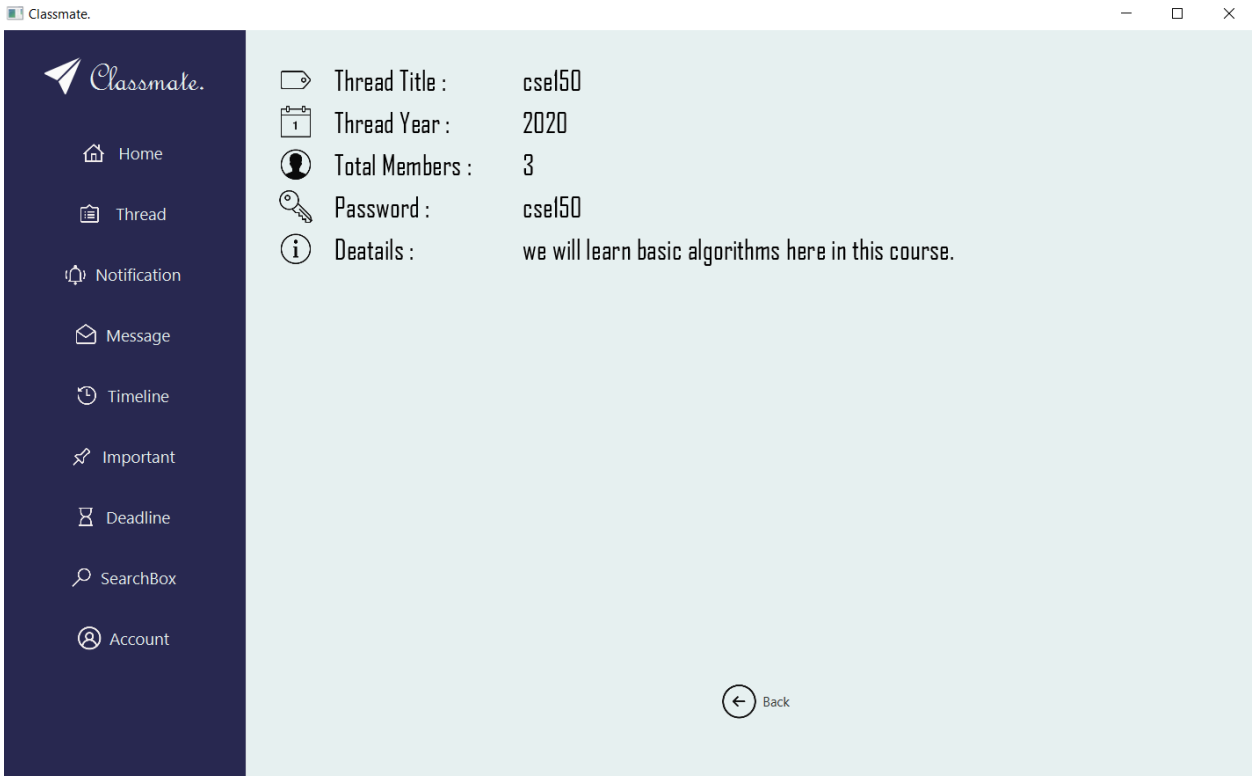

Thread Resources : user can share resources (URLs) which can be opened directly in browser.

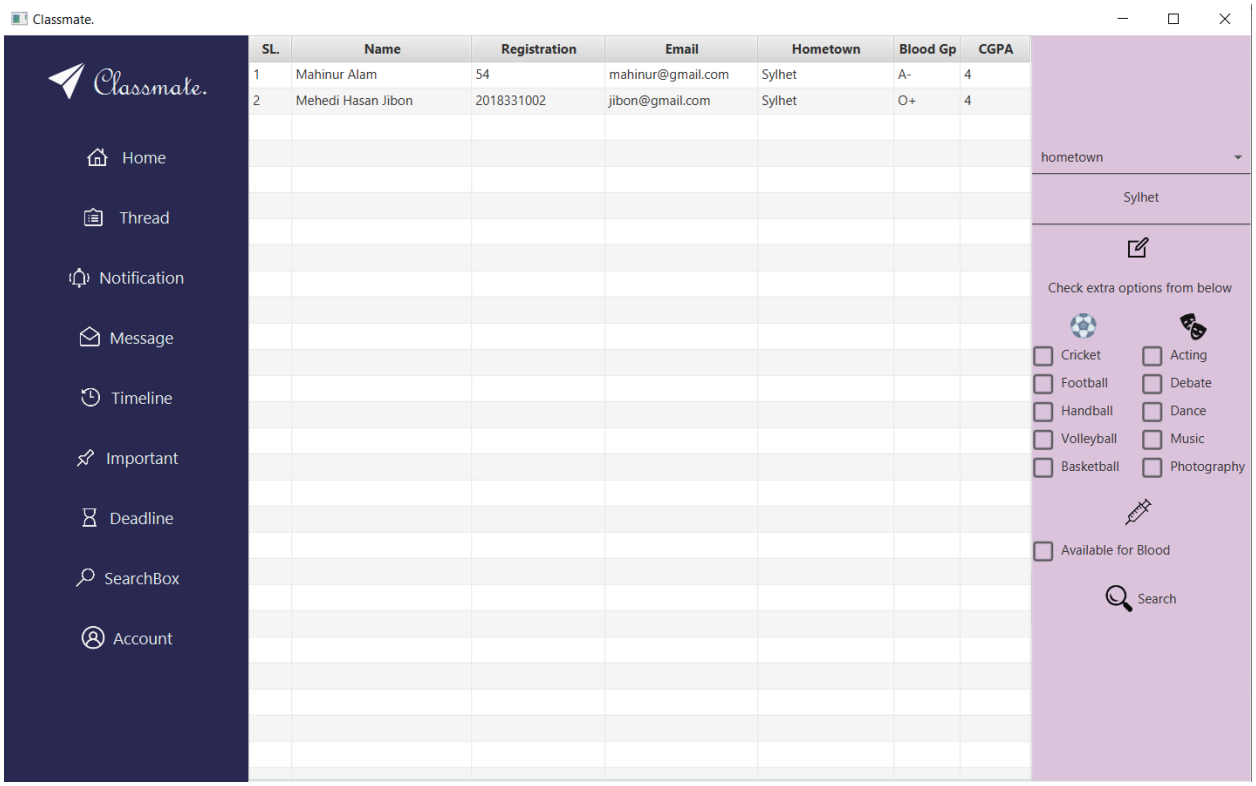

Thread Memebers : in this section user add/remove/view is implemented

About Thread : Details regarding thread will be visible here .

Searchbox : various types of search queries can be done here
