WHAT GEAR DO I NEED?

A guide for new fencers :)

***PLEASE hang gear up, and make sure it is back where it belongs when you are done with it. If anything is broken, let an executive know! If you need help, ask an executive member**

EVERYONE NEEDS:

Mask – most have sizes on the back or side, and come in S, M, L sizes. Your mask should be snug, but not painfully tight.

Glove – ONLY ONE for your dominant hand. Should be snug but not restrict movement

Underplastron – the sleeve goes over your dominant arm and the straps do up one around the neck, one around the torso.

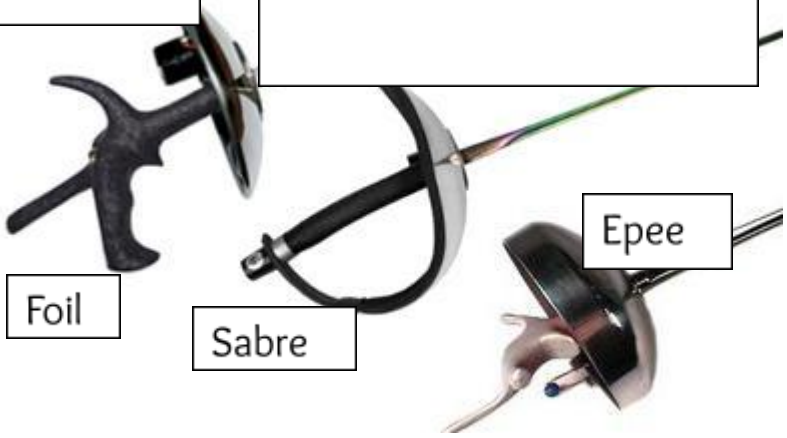

Jacket – some of them do up along your spine (down the back) and some do up like a regular jacket. These have a loop which you need to put your leg through.

OTHER GEAR:

Breastplate – mandatory for female fencers

Weapons – Learn to fence students DON'T need to collect one

Foil

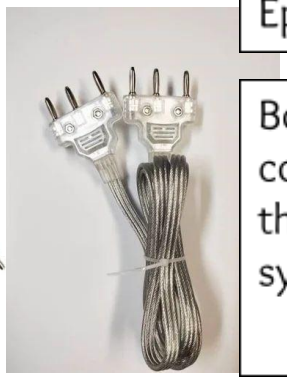

Sabre

Epee

Electric gear (Learn to Fence students DON'T need to collect some):

Foil + Sabre

Epee

Body wires – to connect you to the electrical system!

Foil + Sabre mask wire

Sabre

Lame (pronounced la-may) – the target for foil and sabre to register hits on the electric system

Foil
