

William Moylan- Special Education

Bill Moylan taught at Whippany Park High School for the past 9 years. He spent his first 4 years in the Math department teaching Algebra 1, Geometry, and Algebra 2. After 4 years, he moved into a new role as a Special Education teacher. In this role, he uses his in-depth understanding of math to communicate concepts in a way that students can understand and creates every-day metaphors to explain tough concepts. At Whippany Park, he has coached soccer, basketball, baseball, and softball. Mr. Moylan received his degree in Math and Subject Matter Education from Rowan University. Upon graduation, he continued his education at Rowan pursuing a Masters Degree in Special Education. During his graduate studies, he worked for the Recreation Center as a Graduate Coordinator for Intramurals and Sport Clubs. The past 3 years he has been an NJSIAA certified basketball official, officiating in the Girls North 2 Group 3 sectional championship game this past season. He looks forward to being a part of the Haddonfield community and is excited for the year ahead!

Rachel Friedman- Business Teacher

Rachel Friedman joins the staff of HMHS after 9 years of teaching in the Cherry Hill School District. Rachel earned her BA from Tufts University and her JD from Villanova Law School. Rachel grew up in South Jersey and resides in Haddonfield. She enjoys spending time with friends and family along with her summers down the shore. You will also find her cheering on all Philadelphia sports teams. Rachel is very excited to be a part of building the business education department at HMHS, including bringing AP Economics to the students. She is passionate about teaching and also providing the students with hands-on experiences in the business world. Rachel will be offering business students the opportunity to be part of an international high school competitive business program known as DECA. Last year, Rachel was awarded an Outstanding Service Award for her work as a DECA Advisor. She is very much looking forward to working with the entire HMHS community!

Frank Ewing- Science Teacher

Frankie Ewing, the new Environmental Science and Biology Teacher at HMHS. Teaching is a 2nd career for Frankie. After he graduated from East Carolina University in 2005, with his Bachelor's in Biology, he interned with the Walt Disney Company and that internship grew into a wonderful career where he worked with a number of teams, including Guest Relations, Disney's Special Activities and eventually the Animal Science and Environment Team at Disney's Animal Kingdom. Altogether, Frankie spent 16 years with the Disney Company before moving back up to South Jersey in 2019. Frankie comes to Haddonfield after teaching Environmental Science, Biology and Astronomy at Cherokee High School in Marlton for 4 years. There, he volunteered with the Baseball and Wrestling teams and was the Head Coach of the school's first ever Esports team. He also coaches his son's baseball team and loves every second of it. Frankie loves spending time with his wife Megan and his two children, Posie (4) and Frankie (8). They enjoy going to see movies in the theater and rooting for all the

Philadelphia Sports teams, whether it be at the games or in the comforts of home. He looks forward to getting involved in Haddonfield's sports environment and seeing all the activities that the students are participating in.

Sandra Silveri- Learning Disability Teacher-Consultant

I have over twenty years of experience in two different districts in Burlington County as a general education, special education, structured literacy teacher, technology coach, and teacher consultant. In each position I have held, I have prioritized strengthening home-school partnerships and fostering collaboration in services that help students thrive as productive learners and positive citizens. As a lifelong learner, I enjoy pursuing goals and gaining experiences that transcend the growth of excellence in learning. I have a Master's degree in Instructional Technology from Stockton University, certification as a Structured Literacy Dyslexia Interventionist from the Orton Gillingham Academy (CERI), and I am in the process of obtaining national certification as an Assistive Technology Professional (RESNA). In my free time, I enjoy taking trips to historical sites, cooking authentic Italian food with my husband, and keeping up with my middle school-aged daughter's activities such as running, learning French, and Python Coding. I am looking forward to our collaboration in making this a rewarding school year.
