

1. Open F4 menu & purchase a **Pickaxe** & a **Axe** from the Entities Tab.
2. To mine Metal, equip your Pickaxe and find a rock. To harvest Wood, equip your Axe and find a tree.
(You will get gang XP for this & metal will drop below you. Use your inventory pickup tool on this metal to store it for later)

3. Once you collect enough Wood or Metal to your inventory, sell them to the General Buyer NPC or trade to another player for a profit.
(Prices vary but wood & metal usually goes for \$150-\$300/piece at General Buyer)
4. To increase your profits further, save your wood & metal. They can be used in a crafting table to make useful tools, items, and upgrades.
