

Professional Staff Person of the Month

March 2025

Tyler Hutchinson - Special Education Teacher - Mt. Blue Middle School

It's with great pleasure that we recognize Tyler as our Professional Staff Person of the Month for March! Though in her first year of teaching, Tyler has quickly proven to be an invaluable member of the MBMS team. Her dedication to her students shines brightly in everything she does.

Tyler consistently goes above and beyond, exemplified by her willingness to stay after school to provide crucial one-on-one support for a student returning from illness. Her proactive approach ensures every student has the opportunity to succeed.

Beyond the classroom, Tyler's commitment extends to coaching two sports and actively assisting with complex interventions. Her collaborative spirit and unwavering availability make her a true team player. Notably, Tyler has taken a lead role in implementing a significant intervention and has been instrumental in supporting a student with selective mutism, leading to the remarkable achievement of the student finding their voice in school for the very first time. Tyler's positive attitude, advocacy for her students, and strong community connections make her a truly exceptional educator.
