

Dear Missionary,

I am so glad that things are opening up for you to work with _____. We will be praying with each of you that the Lord will use the helper that He has prepared to walk alongside your family during this part of the journey.

In preparation for the counseling, I would like to ask that you speak with the counselor about a *release of information*, with regard to your counseling. Please know that we have no interest in the details of the counseling session, however, we do need to know that you are in a healthy place to return to the field and are incorporating the necessary tools for the future. For that reason, we will need the therapist to verify that you have been faithful and engaged in the therapeutic process and to give his or her opinion of your general condition with regard to returning to the field and engaging life there as a family. The following names should be listed on the ROI: (*names listed here, only names listed here can view the report!!*) You are responsible for requesting this information.

Following the recommendations listed on the _____ report, we are including the information we will need on the report from your therapist.

- Family Therapy: The family will need to complete an intensive with _____. Based on their recommendations we may need to adjust our next steps, but we know that these things need to be addressed:
List Concerns here
- Additionally, we will need the following information verified by the therapist.
 - o Is the family faithfully attending therapy sessions? Cancellations, or postponements?
 - o Is the family engaging in the therapeutic process?
 - o Is the family safe to return to the field?
 - o In your opinion, has the family engaged the issue(s) that was/were causing disruption on the field?
 - o Do you recommend continued therapy via tele-health from the field?
 - o What can the leader and team do to help?
 - o If/when the person is well enough to return to the field.

This report will be requested at the end of your counseling intensive, along with any other recommendations that _____ concludes. If further counseling is recommended we will ask for another report at the 6-week mark and 3-month mark, depending on the time of leave that has been mandated for the family.
