

Student Certification

I am the student responsible for the exhibit described below. Excluding information assistance, this exhibit is the result of my efforts. This exhibit is not an identical repetition of an exhibit shown in previous years. I have read the rules of the Eastern Iowa Science & Engineering Fair combined with those of the International Science and Engineering Fair and, to the best of my knowledge, I have complied with those rules.

When the Eastern Iowa Science and Engineering Fair collects your private personal information, we use it only as needed to run the Fair. We never sell your information to anybody for any reason. We don't share it with anybody except as needed for running the Fair (meaning, we provide student names and addresses to Award Sponsors, if they ask, so they can send awards to the winners).

When we say "Private Personal Information", we mean personal identifying information which a stranger would normally not know, including your home address, phone number, and email address. We don't consider other information private, such as your name, school, and grade in school. Certainly your name and picture are "personal information"; but EISEF is a public event, and we publicize the people who take part in it and what they have accomplished. By taking part in the Fair, you agree to this publicity.

I have read and understood the EISEF Privacy Policy. I understand that the Eastern Iowa Science and Engineering Fair is a public event, and I give EISEF **and others** permission to publish my personal information (name, exhibit title, school, teacher, and picture) in various fair-related promotional materials, including press releases, the EISEF website, and other websites.
