

## **Update**

Location: gotomeeting

## **Present:**

- Seba
- Bart
- Mike
- 
- (pls add yourself if not in the list)

## **Agenda:**

1. SAMM v1.1 - followup
2. <https://github.com/qudosoft-labs/SAMMCharts>

## **Meeting notes:**

### **SAMM v1.1 release**

Bart / Hugo working on new core model doc

In a nutshell, so far, the terminology has been changed (code review -> implementation review ; vulnerability management -> issue management ; deployment -> operations), the questions should have been updated (I haven't checked these in detail yet), all non-relevant parts have been removed and the graphics have been updated as well.

reviewed by Daniel / Mike

update the questions - based on

<https://github.com/OWASP/opensamm/blob/master/v1.1/tools/SAMM%20Assessment%20Toolbox%20v1.1.xlsx>

remove number of days per activity, e.g. (2 days/yr)

update intro & contributor/sponsor pages

what to do with the 1.0 sponsor info - feedback requested to Pravir

mention them with their names (under the logos - like the How-To document) - action Seba

next version to publish for feedback on the mailing list

create a change log

### **Wiki update**

**action:** Seba to update wiki to v1.1

contents depends on core model update.

will ask hugo to create new badges (received)

authoritative source - currently the PDF - need to extract this to markup/flat text  
XML file is hard to interpret  
ask hugo if the text can be exported again

to be published as book(s) - separate & bundled

*Update website still pending*

OpenSAMM Benchmark

- Daniel will look into the completeness of the template, since some data items seem to be missing/unclear (e.g., scope, team size, ...)

**Questions** - traceability of the remarks done by Daniel Kefer

<https://github.com/OWASP/opensamm/tree/master/v1.1/change%20log>

### **Prepare release version & communication**

Seba?

### **other topics**

1. no news on Fall Summit in New York (chase Kuai on this)
2. Europe SAMM Summit in Spring (location & timing is to be decided)

Barcelona / end of April ?

New York? Preferred to have Pravir participate

Key West?

options ...

objective - version 2.0 discussions

previous topics

SDLC cheat sheet updated with SAMM QSG! to be done!

input: [https://github.com/OWASP/opensamm/blob/master/v1.1/OpenSAMM\\_quickstart\\_02.pdf](https://github.com/OWASP/opensamm/blob/master/v1.1/OpenSAMM_quickstart_02.pdf)

into [https://www.owasp.org/index.php/Secure\\_SDLC\\_Cheat\\_Sheet](https://www.owasp.org/index.php/Secure_SDLC_Cheat_Sheet)

pre-requisite - wiki account - <https://www.owasp.org/index.php/Special:RequestAccount>

update samm project page -

[https://www.owasp.org/index.php/OWASP\\_SAMM\\_Project#tab=Main](https://www.owasp.org/index.php/OWASP_SAMM_Project#tab=Main)

gather input for SAMMV2 + set scope

Michael Bester volunteers for extra work.

**Action list:**

Id	Action	Owner	Timing	Status
A1	add <a href="https://github.com/gudosoft-labs/SAMMCharts">https://github.com/gudosoft-labs/SAMMCharts</a> to resources online	Seba		
A2	check with Kuai on summit	Seba		ongoing
A3	Prepare next version of core document	Bart / Hugo		Ongoing
A4	Ask Hugo about status HowTo doc	Bart		
A5	Review updated core document	Mike, Daniel	from August 22 onward	
A6	Traceability of the remarks done by Daniel Kefer	Seba	by next call
