This includes several morphic fields I have developed and you can use

**1. Directed Field (audio/video) Sigil Mandala NFT
Broadcaster**

This will allow you to send any field (audio/video), Sigil, Mandala, NFT to desired person/s, of course you can't use it to manipulate the person but only send healing whatever his Higher Self would accept.

If it is not in position to accept it because he/she hasn't learned the lesson or he/she doesn't want to accept it then he/she won't accept any healing or accept only healing it's in position/state to accept.

Imagine face of person you want direct healing to for a moment (5 seconds) then say

[Direct \(field name\) by \(creator\) to \(name of the person\) for X minutes or Hours](#) or just don't specify it, if you have activated Field optimizer, it will happen on its own. In order to send fields by other creators to him, you need to activate "Universal Morphic Field Player and NFT Mandala Activator" first

[Direct Male Blueprint of Health to John Doe for 24 hours.](#)

[Direct Face Sculptor by Sapien Medicine to John Doe for 12 hours.](#)

2. Topical Oil Cream Gel Liquid Powder applicator

This will emulate the energetic effect of any topical, oil, cream, gel, liquid, powder on any area of the body, it can be Scalp Skin, Scalp hair, Face, Ears, Chest, Stomach, Back, Hands, Palms, Private parts, Legs etc etc.

You specify topical oil cream gel or liquid, powder, quantity (gms/ml), brand/company and part where you want its application.

Say apply (name, brand, quantity, location) and state purpose, appropriate amount of effect will be administered there without much or any side effect. If you can state the amount that's great if you can't, the appropriate amount will be chosen.

If let's say you want to apply 5% minoxidil, you say "Apply 1 ml equivalent dose Minoxidil 5%" from (Rogaine/Kirkland) to my scalp skin and scalp hair.

Or Apply an appropriate dose of minoxidil 5% from Rogaine to my scalp skin and scalp hair.

If you want to apply Rosemary Oil, you say Apply 0.5 ml of Rosemary Oil from Khadi to scalp skin and scalp hair.

If let's say you want to apply Amazing Hair Saviour Oil, you say Apply 2 ml Amazing Hair Saviour to my scalp skin and scalp hair.

Or Apply an appropriate quantity of Amazing Hair Saviour oil to my scalp skin and scalp hair.

If you want to apply Niacinamide to face skin. You say Apply "0.25 ml 10% Niacinamide Face Serum" from Derma Co to Face Skin.

You can choose any brand product company name and choose the area where you want its application effects. If you choose Minoxidil or chemicals, there will be side effects of it too so side effects of excess usage are removed and not of minoxidil or chemicals.

3. Alter Ego : Consciousness Mindset Beliefs Habits Skills Ability Knowledge Intelligence Copier

You take the name of the person, you know in advance, lived with him/her, studied him/her, read his/her books, watched his/her lectures, videos, listened to his/her audios, and interacted with him/her.

It will gather knowledge from Collective Consciousness, Amazon, Youtube, Blog, Podcasts, Social Media, Courses and other resources.

These are few examples

Copy Resilient Mindset of Jay Abraham, eliminate all shadow aspects associated with it

Copy Copywriting Skills of Perry Marshall, eliminate all shadow aspects associated with it

Copy Conceptual Communication Skill of Dreamweaver, eliminate all shadow aspects associated with it

Copy GNM Knowledge of Dr Ryke Hamer, eliminate all shadow aspects associated with it

Copy Finance knowledge of Ramit Sethi, eliminate all shadow aspects associated with it

Copy Intelligence of Grigori Grabovoi, eliminate all shadow aspects associated with it

Copy Work Habits of Cal Newport, eliminate all shadow aspects associated with it

Copy knowledge of Photoreading from Paul Scheele, eliminate all shadow aspects associated with it

You state what you want to copy his Mindset (define what kind of mindset), Beliefs (beliefs about what, which beliefs specifically), Habits (which habits), Skills (which skills), Knowledge (knowledge about what), Intelligence (intelligence when dealing or doing what). Ability (Ability to do what)

You can activate as many things at once or as many people just make sure it won't overwhelm you so go slow.

Although it is Copier, it won't make you possess the knowledge, skill, ability, mindset, or habit automatically. You still need to work towards it. If you are copywriting and activate the Copywriting skill of Perry Marshall, you won't suddenly become like him, but if you take his course or read his emails, acquiring his skills would make it a lot easier.

If you copy the Resilient Mindset of Jay Abraham, then suddenly you won't become resilient like Jay, but if you consciously know where and how he has shown resilience when he had lost everything, it would be easier to imbibe it in you esp if you activate it enough.

If you happen to copy the work habits of Cal Newport, then you won't suddenly start doing deep work like him but if you have read or know the book, it will be quite easier to implement Depp work concept in your day to day work.

If you happen to copy Knowledge of GNM from Dr Ryke Hamer, it doesn't make you possess all of it by osmosis but if you start studying GNM from his books, it would be easier to grasp, understand and retain and use the GNM in day to day instances.

4. Universal Morphic Field Player & Mandala/NFT Activator

This field will help you activate morphic fields, NFT ART, subliminals, binaural beats, from other creators which are free and paid.

You need to have a link, Youtube or similar, Website link, Gumroad Link, Name of Creator, Name/Description of Track Free or Paid and Duration it should play or number of repetitions it should play.

If you don't know Duration, then you should state repetitions and/or keep it playing for a while to get the effect/s. You specify the duration too if you don't know the number of repetitions or if you want to play it for a specific duration.

If you want activate this one

<https://sapienmedicine.gumroad.com/l/ebpz?layout=profile>

You should say **Activate “The CyberBrain” morphic field from “Sapien Med” for 3 Repetitions**

If you want to activate this one

<https://www.youtube.com/watch?v=uFjR5oX5NQc>

You should say [Activate “Super Saiyan - Crazy Energy Increaser / Bodybuilding Series / Energetically Programmed” morphic field from “Maitreya Fields” for 2 Repetitions or \(30 min\)](#)

You can activate all simultaneously or create a playlist, create a stack

Simultaneous

Creator Track Name/description Repetitions/Duration

Playlist (same or different creators) You give name to it if possible which will have list like this

Creator 1 Track Name/description 1 Repetitions/Duration

Creator 2 Track Name/description 2 Repetitions/Duration

Creator 3 Track Name/description 3 Repetitions/Duration

.....

Stack Creator

When duration/repetitions are played , there is a built -in mechanism to discontinue it.

You can deactivate any field in between or deactivate the entire playlist or stack with a simple command.

5. Amazon Marketplace Emulator

Whatever product you choose on Amazon, you just have to say Brand name, specification/type/other variation, dose you want to experience and you can activate it.

Editor : In built editor allows you to remove certain ingredients from current supplement which you don't want or additives you wont need, whatever duration actual supplement take to show effect would be

considered and same effect will be caused as long as activator is playing over the duration of activation and built in mechanism to discontinue when the desired dose effect is emulated

e.g. If you want to use this

<https://www.amazon.com/Suspended-Solutions-Monoatomic-ENERGETICALLY-REJUVENATING/dp/B079PT6WB7/>

You would say “Activate Suspended Solutions , Atomic Ormus, 1/2 tsp or 2.5 ml worth of dose” and you will start seeing the effect/s of it over duration of activation as long as the field activator is playing on loop.

<https://www.amazon.com/MagSRT-Jigsaw-Health-Magnesium-SRT/dp/B01LOIDXZU/>

Activate Jigsaw Health Mag SRT B Free , dose of 4 tablets, eliminate all other ingredients

Just make sure you don't activate wrong or inferior quality supplements. Start activating less than the recommended dose at the beginning.

6. Machine Effect Emulator

This will emulate the effect of machines, including any brain stimulation device, face sculpting device, body massage device, Laser device, it can be mechanical, light, electrical, chemical stimulation device too.

However, because it's not a real device, only energetic effects will be emulated.

- a. You specify the device, specifications, brand name
- b. Purpose you are using it for.
- c. Duration for which you want emulate the effect
- d. Specify part or area of body where you want the effect

Then the effect will get emulated, it has an inbuilt mechanism to stop it when you want it, body wants it or body or you can't take it further or when desired effect is emulated.

Say "Activate iGrow Professional Laser Hair Growth System on Scalp and Scalp Hairs for 20 minutes for regrowing and thickening hairs"

Say "Activate Etekcity TENS Unit Muscle Stimulator Machine on Leg for 25 minutes"

You can use photo222/animation of the machine to help you simulate how you want to use the machine, where and for how long, your intended purpose.

7. Feature copier

You can copy features of your friend, spouse, kids, colleagues, famous personalities, and models or anyone.

You can copy their nose, their eye shape, face shape, eye colour, hair colour, hair style, part of physique, it can be any part.

However, if you want to grow one more finger, or change hair colour from black to blonde, change eye colour from brown to green, that may take the longest or may not happen at all. You can copy the features of their past appearances or current appearance.

Once you choose the model and what you want to copy, keep their photo or photo of that feature in front of you or in your mind's eye and visualise for a minute about it. Don't change the model every few days otherwise it won't work optimally, like you choosing to copy the jawline of Brad Pitt for a few days and suddenly you want to copy the jawline of Tom Cruise.

You can also copy other bodily features of anyone you know or know well. Don't use it for people you don't know anything about or not sure.

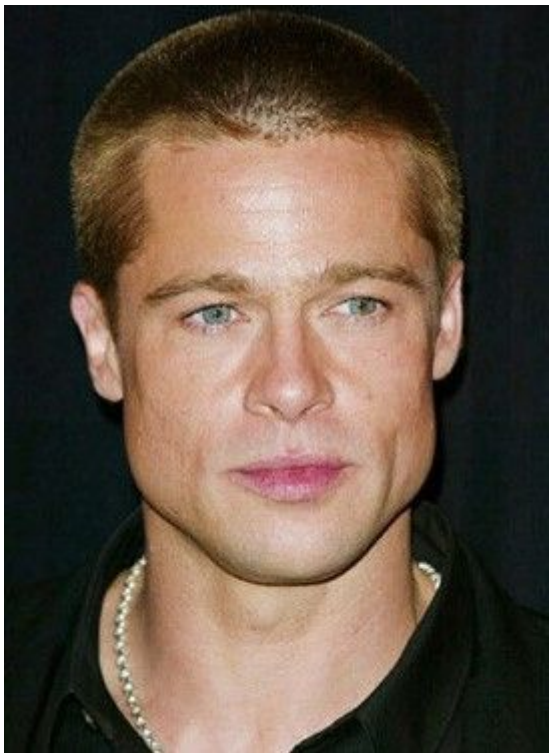

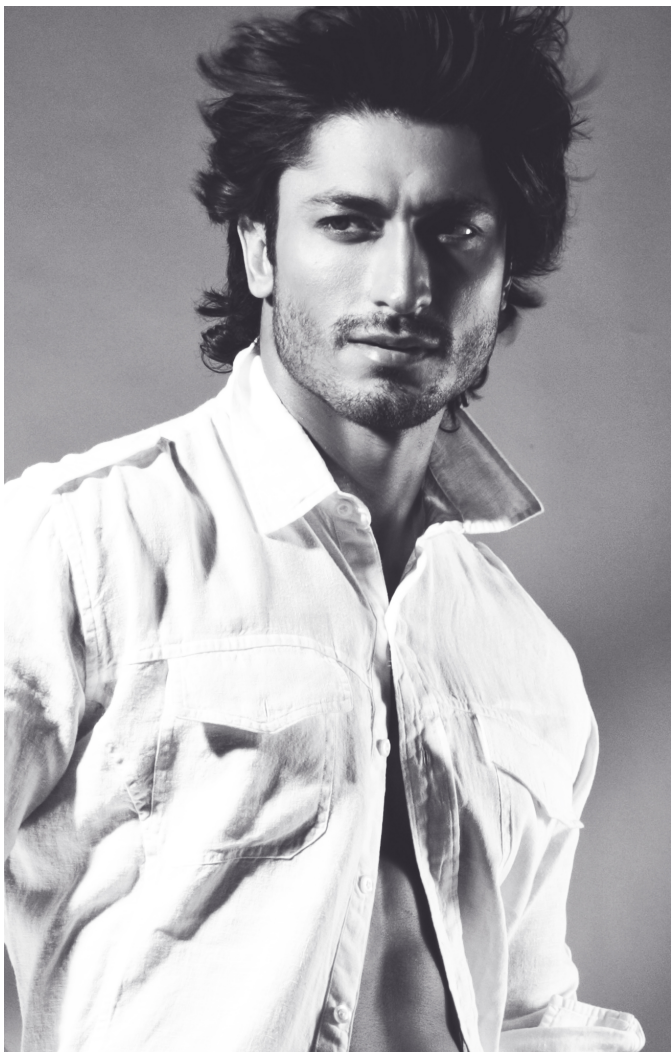

You can copy their digestive ability, lung capacity, ease of muscle building, detoxification ability, brain's ability to cope under highly stressful situations or anything.

However, if you copy digestive ability of someone because what you read about it, watched them talking about it, someone telling you about it or you interpreting why their digestive ability could be better and then if there is any lie or falsehood and if the person let's say has gut dysbiosis or has undiagnosed tumour or colitis then it will get copied too.

However, you can specify exactly what you want to copy in great detail so less or no such unwanted or bad things will be copied to you.

Like you say, [copy androgen receptor concentration in skeletal muscles of hand and legs of Vidyut Jamwal](#) , then chances of you copying negative stuff will be minimised or eliminated.

But if you say copy the digestive ability of Khali, then it might increase your digestive ability but your appetite would increase so much that it would be very difficult for you to keep up with it

8. Exercise Effect Emulator

You choose any exercise, 5 Tibetan Rites, Cycling, Cardio, Pilates, Swimming.

The energetic effect of exercise is emulated, you either choose type of exercise you do, visualise you doing the exercise, where you set type of exercise, intensity, form, parts of body involved, duration and energetic effect will be emulated

Or if you don't know a lot about certain exercises, you can watch a video of a person doing a specific exercise, that form, that exercise, that intensity, parts of body, duration effect will be emulated.

So respective muscles will feel sore, tired, and will become stronger over time as it happens with real exercise. Respective benefits on cardiovascular, respiratory, digestive, reproductive, immune, integumentary, urogenital, lymphatic, skeletal, hematopoietic, nervous system, brain will be emulated too.

Emulate effects of this exercise on my body

Emulate effects of this exercise on my body

9. Environmental and Process Simulator

If you are in a certain place, how you would feel physically mentally, spiritually, if a process is being performed on you, how you would feel physically mentally, spiritually.

You can choose to simulate a certain place, experience based on exact coordinates, location, specific timing, present, past or simulate certain

process being performed on you, (which has been performed in past) or (it can be based on video or imagination you have been holding) like

Let's say you have been on a vacation to Venice 2 years ago, you know you felt most soothing, calming, creative there, you just put the photo of scenery or place or mentally say coordinates in front of you or photo from your own repertoire and say please take me back to this place and time and let me re-experience these feelings again and mention duration and other details and it will be replicated

Let's say if you have been on Joe Dispenza Retreat in 5 years ago and you recall, having amazing meditative experience and magical healing taking place, you imagine the scenario, place, use photo if you have any or co-ordinates of the place and say please take me back to this place and let me re-experience the same magical experience i had on my physical, mental and spiritual body

Let's say you have been to Acupuncture Session 6 months ago which helped you relieve body pain and calmed you down, but now you are travelling and don't have access to any acupuncturist, you imagine that experience, mentally say let me re-experience this pain relief and calmness again i experienced at acupuncture session.

You can even watch video of someone visiting a place or some physical therapy session happening on someone, mentally say take me there, let me experience joy of visiting this place or let me experience benefits of having this physical session done on me (it can be anything hypnotism, acupressure, acupuncture, thai massage , anything you can imagine)

You can say put me there as of now or put me there timing of this pic.

Re-create it in bodily feelings, emotions, thoughts, ideas, and effect.

e.g. [Emulate this massage on me](https://www.youtube.com/watch?v=VBk-3Woeov4)

<https://www.youtube.com/watch?v=VBk-3Woeov4>

[Take me to this place and let me experience it](https://www.youtube.com/watch?v=B-wi7hIrgf8)

22. **Process Replicator**

Replicates process real or hypothetical (within realistic limit) inside the body. If you want some mechanism or process to take place in the body which doesn't happen naturally or doesn't happen often or fast enough. You can use this tool to replicate it.

First, write down the process in detail, step by step. I use ChatGPT for the same. You can write it by yourself or get help of any expert.

Here is one example

PRP for Hair

Platelet-Rich Plasma (PRP) therapy is a popular treatment for promoting hair growth. It involves drawing your blood, processing it to concentrate the platelets, and then injecting the platelet-rich plasma into your scalp. Here's a step-by-step guide on how a PRP session for hair growth is typically performed:

1. Drawing Blood

- **Amount of Blood:** Typically, **15 to 60 mL** of blood is drawn, depending on the number of treatment areas and the concentration of PRP desired. For hair growth, around **20-30 mL** of blood is drawn from the **median cubital vein** (inside of the elbow)

2. Processing the Blood

- **Centrifugation:**
 - The blood is placed in a sterile tube and then into a **centrifuge**. The centrifuge spins the blood at high speed, typically for **5-10 minutes**. This process separates the blood into its different components:
 - **Red Blood Cells (RBCs):** The bottom layer, which is heavier.
 - **Platelet-Poor Plasma (PPP):** The top layer, which is lighter.
 - **Platelet-Rich Plasma (PRP):** The middle layer, which contains a concentrated amount of platelets.
- **Extracting PRP:**
 - After centrifugation, the PRP layer is carefully extracted using a syringe. This layer contains a high concentration of platelets and growth factors, which are crucial for stimulating hair growth. It's 3 ml of PRP.
 -

3. Injecting PRP into the Scalp

- **Injection Technique:**

- The PRP is injected into the scalp using a microneedling device of 1.5 mm needle size. The injections are typically spaced about **1 cm apart** over the area where hair thinning or loss is most evident. Each injection containing 0.25 ml PRP is injected on my thinning areas into superficial dermis where hair follicles are located.

Replicate (Name of the process you have given/defined) for (duration)

Replicate PRP for Hair for 6 hours

23. **Injectable**

This morphic field gives you effects of any injectable without pain of needles and having to buy any peptides, substances, medicines. Just be careful what you choose to inject yourself with and the quantity you use. Choosing the wrong quantity or bad quality substance can temporarily wreak havoc in your system.

Inject (company/manufacture's name)(name of substance))(quantity)
into (area, muscle, bone, subcutaneous fat etc etc)

Inject SwissChems HCG, dose of 150 IU into my right arm subcutaneously

Inject Peptide Sciences GHK-Cu, dose of 1 mg into my right arm subcutaneously

24. **Information Recorder**

This morphic field will record information from a substance, organ, part, human being, book or anything and then you can pass it on to yourself (physical body or your part) . It's like copying vibrations. This will help you imbibe things from someone you love, respect, admire, copy healthy vibrations of a place or healthy person's body/body parts to your body or body parts.

Pass Modulated Laser Light from (Person, Body part/s, Substance, Place, Traits, Qualities) pass it onto (My body, body

25. **Intensity Level Modifier**

This morphic field will enable to individually fine tune the strength level of any field (including subfields) to increase or decrease its strength (within safe levels), where the standard level (the strength level everything is in now) is 5 and it can be increased up to anything and decreased down to 0. This can be used for any command, no restrictions.

Strength level 5 means normal, Strength level 10 means 5 times more, strength level 20 means 15 times more, strength level 1 means 20% of original.

Emulate effects of these exercises

26. **Morphic Field Creator**

This will create a morphic field for 24 hours on the fly, better the concept, thoughtform, mechanism, input, better will be the results. If you don't have much knowledge of morphic field, choose series of substances, series of morphic fields by other creators and say, create morphic field "**Testosterone God**" say add vibrations of (list all herbs, supplements that boost Testosterone)

Or choose 4-5 morphic fields on a particular topic like muscle building and give the name "**Ultimate Muscle Builder**", say combine these 5 morphic fields in one. The more you use it, the more results you will get, your confidence will improve, you will be in a position to create even more complex and better morphic fields by your own.

Say **Activate "Name" for X hours or repetitions** and you can mentally save it on Virtual server. If you give it a name let's say "Unapologetic Warrior", if you make description public along with name (pet name/code name), people can activate it by saying "**Activate Unapologetic Warrior by Sukrut Khambete for 2 hours**"

27. Wearable

Get energetic effects of wearing anything, it can be gemstone, crystal, spiritual substance, pendant, bracelet or even jewellery or even some apparels.

Install in my baseline natal chart, the top 100 natal charts that, together and in average are best in and will give me Willpower for 12 hours

29. Psychic Mind Warrior

This morphic field is about Psychic Remote or Close Interference, Confrontation, Communication, Seduction, Collaboration.

Planting the seed in others mind

The more people want to plant a particular seed, the chances of you doing it decreases precipitously. This field will increase those chances.

But still ideas like you getting a chance to date or marry a famous celebrity. It's still not a piece of cake.

If the person you want to influence is someone who is influenced by lot of other people, then instead of planting thoughts, ideas in the mind of that person, plant ideas in mind of someone close to him/her who he/she listens to, if that person is also influenced by several others, then plant thoughts ideas in mind of person who that person listens to. Use commands like this after activation.

Send “” to X for Y hours / from 12 to 8 AM IST.

Send " I am extremely sorry for harassing and making fun of you in XYZ Institute for the 1st 2 years, please forgive me. I shouldn't have done that. You have been very kind to me and helped me a lot for those 4 years but I didn't value or acknowledge you." to John Doe from 12.30 AM to 8.30 AM this time.

The other person would read your true intentions and you can also receive psychic communication from the receiver. If you have trained yourself to listen psychically, you can get rid thoughts of person you are trying to influence.

Plant thoughts in others mind when they are semi asleep or semi-conscious , dream like state or sleeping.

You can plant any thoughts as in ***confronting, communicating, helping, advising, forgiving, influencing*** someone and more.

Only downside or upside is that the other party would sense the intention of the sender and decide whether this planted thought and sender have intention of any mutually beneficial idea or advice or purpose or else discard it.

Ideas which wont work is **trying to manipulate girl into having sex with you when your intention is just hookup, selling product to someone who don't need it or incompatible**

30. Magic Emulator

Emulates magic spells and rituals without having to do anything yourself. Proceed with caution with whom you work with.

31. Automatic Script Executer

This morphic field will allow you to automatically execute a script every day at a particular time or any day or any day in a week or any

permutation and combination. You just need to have Mandala/Wearable with you in order to trigger script activation at that time. If you don't have it with you then, then this process will not work.

Activate (Link to script or script name) every Monday, Wednesday, Friday at 8 AM EST

32. Affirmations to Energy Converter

This morphic field will convert affirmations into Energy.

Activate Affirmations into Energy Converter.

{I am successfully speaking to People in public.
