September 2025

Dear Parents/Guardians,

The Berkeley Township School District administers a variety of assessments throughout the school year. Teachers administer formative and summative assessments in the content areas in their classrooms. Some assessments administered in the district are standardized tests. A standardized test is a test that is administered and scored in a consistent, or "standard", manner. Standardized tests are designed in such a way that the questions, conditions for administering, scoring procedures, and interpretations are consistent and are administered and scored in a predetermined, and consistent way. Most of the tests that are provided in the district are computer-based and the district works closely to provide accommodations and modifications for students who may need more assistance as per their IEP or 504 plans.

Please review on the district website, www.btboe.org, the assessment information for standardized tests that students in Berkeley Township School District will participate in for the 2025-2026 school year. Please note that all students may not be administered all assessments and that specific testing dates will be provided at a later date. This information is subject to change with further information from the New Jersey Department of Education.

Respectfully submitted,

Melissa Gallagher
