

**You get the same perks from me no matter which platform you choose, but some platforms offer additional benefits of their own, and I get a different percentage of your pledge.**

**Here's how all of that works so you can make an informed decision:**

### **Patreon (I bring home 90%)**

**I have this platform set to display the total amount that all Patrons contribute every month, which makes your support more visible.**

**Check [that Patreon link](#) to see what perks I provide on my end. You get those simply by supporting me through any of these three platforms at the amount listed on Patreon and connecting your Discord account to that platform. My bots will automatically give you access to supporter-specific channels on [my Discord server](#) once you do that.**

### **YouTube (I bring home 70%)**

**The balanced option, this one also gets you a badge that's visible when you comment on my XandyPants channel videos.**

### **Twitch (I bring home 50%)**

**While Twitch takes the largest cut and offers fewer options (my \$9 reward tier has to be \$10 through Twitch and I can't offer a \$1 tier, and I can't change that)..**

**..you do get more additional benefits, like a badge that's visible in chat on my Twitch channel and the ability to bypass the ads Twitch doesn't allow me to remove on my channel.**

**Note that Twitch Prime also confers those benefits, and I treat Twitch Prime subs just like paid \$5 subs, so you get all related perks.**

**If you have any questions, feel free to ask me [on Discord](#), [during a live show](#), or [on Twitter](#). Thank you for your support!**
