

Matthew in USA

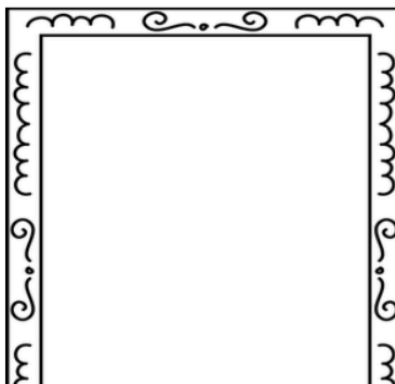

One interesting
fact about the USA:

The USA is located in the
continent of

Matthew's day
in the USA is similar
To mine because:

Matthew's day in the USA is
different than mine because:

What I think the USA looks like:

Hello!

My name is Matthew, and I live in New York City in the United States of America! We live in an apartment building. Sometimes it is loud outside my window, so I listen to the radio when I go to bed.

There are a lot of people in my apartment building and the streets are usually very busy. We are hardly ever the only people in the elevator down to the lobby and it takes us a while to get a taxi cab most of the time. I like to ride my bike to get places, it is faster than driving because there is a lot of traffic.

When I go to school, I take a bus. We learn language, math, science and social studies. Every day we sing the national anthem, I sing the loudest.

At recess we play on the blacktop. I skin my knees on the blacktop a lot when we play soccer. There is not field at my school so we have to play on pavement. There aren't a lot of parks around for kids to play at, but the ones we do have are really fun because there are always lots of kids at them. I like to walk through Central Park and pet the horses that are there to take the tourists on carriage rides.

I know my way around the city really well, sometimes I can even help grown-ups find where they are going. I guess I am a real New-Yorker!

From,

Matthew (United States of America)
