

InDACON 2022
(Online Presentation)
26 March 2022

Paper ID	Title of Paper	Name of author
MBM/InDACON22/AUO1	An integrated nanofiltration-memberane distillation (NF-MID) process for the treatment of saline oily wastewater	J Juliana, Noel Jacob Kaleekkal
MBM/InDACON22/AUO2	Optimization and Modelling of solar still using ANN	M. SHAHNOOR R. TAMBOLI
MBM/InDACON22/AUO3	Determination of malathion and dimethoate pesticides in groundwater at kota district of rajasthan, india	Samrin Sheikh, Kuldeep Kamboj, Anil K. Mathur ³
MBM/InDACON22/AUO4	Ultrasonic irradiation coupled electrochemical oxidation of real waste water from paper mill	Sanjeev Yadav, Vaibhav Shrivastava
MBM/InDACON22/AUO17	Investigation on thermal performance of Carbon based Nanoparticle with Cyrene as Nanofluid: A Green Heat Transfer Media for Solar Desalination System	Nipu Kumar Das, Papu Kumar Naik, Suryasarathi Bose, Tamal Banerjee
MBM/InDACON22/AUO6	Effect of substrate material on the overall efficiency and photo-efficiency of SrTiO ₃ photo-electrodes.	Sangeeta, Ashok N.Bhaskarwar
MBM/InDACON22/AUO7	Design of High Power Density Pressure Retarded Osmosis (PRO) Membranes Using Artificial Intelligence-Machine learning Based Modeling and Optimization	Rudra Rath

InDACON 2022
(Online Presentation)
26 March 2022

MBM/InDACON22/AUO8	Graphene Oxide-based High-performance Thin-Film Composite Reverse Osmosis Membranes for Seawater Desalination	Rutuja Bhoje, Asim K.Ghosh, Parag Nemade
MBM/InDACON22/AUO9	Effect of multi-functionalized multi-walled carbon nanotubes on the antifouling and antibacterial property of polyethersulfone hollow fiber membranes	Preety Kumari, Jayesh Bellare
MBM/InDACON22/AUO11	Separation of lignin from sawdust with support of alumina nanoparticle integrated polysulfone nanofiltration membrane	K. Deepa, G. Arthanareeswaran
