Walled Lake Consolidated School District middle school and high school students participating in the district-provided chromebook program will keep their device this summer. Families who purchased the annual Technology Protection Plan, the WLCSD student device insurance program, for the 2024-25 school year are covered thru June 30, 2025, 11:59 PM.

Families may choose to purchase or renew the Technology Protection Plan for the 2025-26 school year. The cost to participate is $20. If paid by June 30, 2025, 11:59 PM, coverage will start July 1, 2025, 12:00 AM. Families that wait for until the Back-to-School Packet is available will not have coverage between July 1, 2025, and the purchase date.

The final date to purchase the Technology Protection Plan for the 2025-2026 school year is August 24, 2025, 11:59 PM. Families choosing not to purchase the Technology Protection Plan will be responsible for any damage repairs.

Payments should be made through the eFunds. Families can access the eFunds portal via the district website or through Family Access. To purchase, please complete the following steps.

1. Log on to eFunds
2. Select Chromebook Insurance in the Optional Fees menu
3. Completed the purchase for each student that is participating in the program

Please note, families that choose to continue participating in the district chromebook program do not need to repay the $50 deposit fee.

Summer Support

Summer support is available for devices in need of repair. If a chromebook needs repair during the summer break, please complete a repair form.

Return of District-Provided Chromebooks

If a student graduates, plans to leave the district, or does not want to use a district-provided chromebook next school year, the district will host turn-in dates. Please complete the 2025 Chromebook Return form so that we can plan to retrieve the device. We will communicate turn in dates directly to families that complete the form. Graduating seniors will receive a separate communication to support device return.

Please note, students that plan to transfer to Grad Alliance or VLAC should return their district provided device. Grad Alliance and VLAC provide devices for students participating in these programs. Please complete the 2025 Chromebook Return form so that we can plan to retrieve the device.

Deposits will be refunded after the devices have been evaluated for damage. Please note, to receive the full deposit, the case and power cord must be returned with the device.

Devices cannot be returned to schools after June 11, 2025. If a device is not returned prior to the conclusion of school, please return devices to WLCSD Technology Department, Educational Services Center, 850 Ladd Rd, Bldg. D, Walled Lake, Michigan 48390.

If you have any questions, please contact Tawana Berman at TawanaBerman@wlcsd.org.
