

PRIVACY POLICY FOR MUSI-COLOR

Effective date: November 8, 2023

We, Stones of Fire, operate the MUSI-COLOR mobile application (hereinafter referred to as the "Service").

This page informs you of our policies regarding the collection, use, and disclosure of personal data when you use our Service and the choices you have associated with that data.

Information Collection and Use

We do not collect any personal data with our Service. Therefore, we do not store or share any personal or sensitive information.

Types of Data Not Collected

Since our Service does not collect any personal data, the following are not applicable:

- Personal Data
- Usage Data
- Tracking & Cookies Data

Use of Data

As we do not collect any personal data, there is no use of such data.

Facial Expression Detection

The Musi-Color app uses ARKit to detect facial expressions in real-time to enhance the user experience by playing musical notes based on these expressions. This feature operates entirely on the user's device, and no face data is collected, stored, or transmitted by the app. We do not share any face data with third parties, as no such data is ever collected or retained.

Movement Tracking The Musi-Color app uses Vision for real-time movement tracking to enhance the user experience by playing musical notes based on detected movements. This feature operates entirely on the user's device, and no movement data is collected, stored, or transmitted

by the app. We do not use the TrueDepth API for any data collection, and no movement data is shared with third parties.

Transfer of Data

Your information, including personal data, is not collected, and therefore not stored or transferred to any location.

Disclosure of Data

Legal Requirements: Since we do not collect any personal data, we cannot disclose any.

Security of Data

The security of your data is important to us, but remember that no method of transmission over the internet or method of electronic storage is 100% secure. However, as we do not collect personal data, this is not a concern for our users.

Service Providers We do not employ third-party companies and individuals ("Service Providers") to facilitate our Service, provide the Service on our behalf, perform Service-related services, or assist us in analyzing how our Service is used.
