

Important notes:

As a note all pieces will be drawn at A4 digital size, 300 DPI. If you want different please state before commissioning/Add to order form as bigger sizes may reflect in a pricing increase.

A character can be interacting with an object, whether that be standing on, in, or touching, this is included in the prices above and won't be charged as an additional. However, depending on the complexity of this element it may increase the overall price, and as the prices above state they are only a starting point. For more information on this please view my pricing list examples.

Due to the nature of digital illustration the prices below relate to the illustration of one character. For additional characters to the scene 50-100% of the original piece price depending on character complexity

Digital character Commission starting prices

	Headshot	Halfbody	Fullbody
Simple Illustration	Starting at £50	Starting at £70	Starting at £90
Midweight Illustration	Starting at £60	Starting at £80	Starting at £100
Refined Illustration	Starting at £90	Starting at £100	Starting at £110

What do they mean? All are created to a finished standard, the look will however differ.

Simple Illustration	Still includes lighting, shading, bounce light ect, but will be looser, less refined intricate detailing and patterning
Midweight Illustration	Looser than refined Illustration, higher detail focused to important points of the piece
Refined Illustration	The most detailed of all levels. You can expect detailed lighting, shading, bounce light ect. A meticulous attention of detail whilst still retaining my painterly feel. Refined by small strokes ect.

Backgrounds come as a separate add on and are priced as listed below

Due to the nature of Traditional illustration the prices above relate to the illustration complexity and size of the paper, and account for up to **two characters**. For additional characters the price will rise on a case by case basis.

Materials used: All paper is 200 gsm or above, but will vary depending on what material you wish the piece to be made of. Materials I use are, oil pastels, coloured pencils, watercolour, gouache and acrylic markers. If you want me to use a specific medium you **MUST** let me, the artist, know before starting the commission. If none is specified I will use the materials I think best suit the brief.

Backgrounds come as a separate add on and are priced as listed below

Backgrounds

	A5	A4	A3
Flat colour	Free	Free	Free
Basic	Starting at £10	Starting at £10	Starting at £10
Complex	Starting at £20	Starting at £20	Starting at £20

Example:

Digital Single
character,
Fullbody, Refined
Illustration with a
basic
background

Character= £140
Background=£10
Total= £ 150

Example:

Digital, single
character (other
characters
considered
background
elements since
so simple and
non-discernable)

Halfbody,
midweight
illustration with
basic
background.

Character= £90
Background=£20
Total=£110

Example:

Digital, fullbody, midweight
illustration, Complex background

Character= £110
Background= £40
Total= £150

Example: Digital, Fullbody, Refined Illustration

Regarded as full body as more than 80% of body is showing and additional elements (cup) stand in for this. The interacting element, in this case the cup, is basic, so in this case does not increase price. This piece would sit as the minimum pricing for its section.

Total= £110

Example:

Digital, Midweight Illustration

Halfbody(This counts as halfbody as unlike others part of the form isn't just obscured by an additional element of the character piece, it is entirely not included in the imagery/ cut off)

Total= £85
