RULE: 14 – DOCKAGE/WHARFAGE Eff: 01OCT2014

Effective 01NOV2017

Filing Codes I, C

DOCKAGE/WHARFAGE:

“Dockage” means the charges the county assesses pursuant to the tariff (Port of Miami-Dade Tariff) against a vessel for berthing at a wharf, pier, bulkhead structure, or bank, or for mooring to a vessel so berthed.

“Wharfage” means the charges that the county assesses pursuant to the tariff (Port of Miami-Dade Tariff) or otherwise against the cargo or vessel on all cargo passing or conveyed over, into, or under wharves or between vessels (to or from barge, lighter, or water), when berthed at a wharf or when moored in a ship adjacent to the wharf. Wharfage is solely the charge for the use of the wharf and does not include charges for any other service.

“TEU” means on twenty (20) foot equivalent unit container, whether full or empty. Any container of thirty (30) to forty-five (45) feet in length shall count as two TEUs. All containers longer than forty-five (45) and up to forty-eight (48) feet in length shall count as two and one-half (2.5) TEUs. All containers over forty-eight (48) feet and up to sixty (60) feet in length shall count as three (3) TEUs. Containers of any other length shall be divided by twenty (20) feet to determine a TEU value. For TEU throughput calculation purposes only, each vehicle, car, tractor trailer, boat, or other mobile equipment shall count as two-thirds (2/3) of a TEU, unless such vehicle, car, tractor trainer, boat, or other mobile equipment is contained in a container or car rack, in which case its TEU value shall be calculated at specified in this definition.

“TEU Rate” means the rate that the terminal operator shall charge the carrier for each TEU (loaded or unloaded) transferred either to or from vessels calling the Port, in lieu of the Dockage and Wharfage rates otherwise applicable in the tariff (Port of Miami-Dade Tariff. TEU rate expressly does not apply to shifted or re-stowed containers (meaning containers temporarily removed from vessel solely to access other containers and then stowed back on the vessel). For clarification purposes, a forty (40) foot container discharged from a vessel to the terminal area and then discharged off the Port via truck, barge, or rail would be billed to carrier at the applicable TEU rate multiplied by two (as a forty foot container counts as two TEUs). A forty-be billed to carrier at the applicable rate multiplied by 2.5 (as a 46 foot container counts as 2.5 TEUs). Dockage and Wharfage are included in the TEU rate.

RULE: 15 – TEU RATE FOR DOCKAGE AND WHARFAGE Eff: 01OCT2020

Effective 01OCT2025

Filing Codes A
