

LPS Competition Corps

Students taking any Law and Public Safety (LPS) competition that is **test only** will also be required to participate in the LPS Competition Corps - nicknamed "Squad." Students can add it to their resume as a volunteer activity or community service event.

Squad will help as actors in scenarios, runners, and time keepers as well set up and break down competitions. Each student will be on one of three teams that will rotate around competition assignments and in one time period take their exam.

For details review the competition information:
