

# EM Unfair Advantage Ep.7 Notes

Enormous bountiful rewards for the hardworking.

Lazy and gay = disappointed.

Say what you mean and mean what you say. Never go back on your word.

Top G will never sell out.

Why?

“I don’t want to anger God by being a liar”

God only gives power to the deserving.

The plan of how I intend to make all of you as rich as possible without making God mad:

Certain things have to remain for me to achieve my objective.

I want the culture to remain.

Don’t say N-word, retard or ask about coins.

You join the real world to become a hard worker, not a degen.

Money is an amplifier.

Geek that makes money = geek with money.

G that makes money = Top G.

When you earn money, instead of make money via crypto, you actually enjoy it.

As you earn money, you also learn the baselines. Crypto does not do that.

“I refuse to make you rich unless you are ready to be rich”

Culture based on hard work.

“We will do everything it takes to escape the Matrix and make God proud via fulfilment.”

Hard work is the way I did it, and hard work will be how you make it.

“Buy this coin I’m going to pump it” teaches you NOTHING about hard work

If you are afraid of hard work you will not get rich.

Hard work must be rewarded fairly.

Fair system where those who work the hardest are the ones rewarded the most and vice versa.

How hard you work inside the programme is shown via the money you make.

Final non-negotiable:

I will work with good people only.

“Billionaires are BEGGING to work with me after yesterday”

Top G coin are going to put up some advertisements, some projects sound semi-interesting.

An imaginary world: Project that retains no degeneracy, hard work amongst students and justice.

“What I did yesterday was nothing, I didn’t even try”

“I didn’t do anything and I conquered crypto. Imagine what I could do if I partnered with billionaires for instant liquidity”

Airdrop to TRW students.

Flying around the world for attention.

If this imaginary project were to take place, it would only be fair to distribute coins fairly.

We should link the amount of tokens you get with your status within TRW.

Members of the Council will get the most.

Rooks, knights, bishops, kings will get the most.

Your hard work will be rewarded with cold hard cash.

Power Levels will also decide the value of tokens you get.

HELP the other students.

Help others + work with others = Power Level ⇒ Cold hard cash.

This imaginary crypto project will be the biggest crypto project in history.

You will have time to prepare yourself.

If you do not work, you will miss chances of making millions of dollars.

“I will leave Romania in 3-4 months”

That's enough time.

You should log into TRW every single day, and increase your power level and status as much as possible so you are as prepared as possible.

“God has instructed me to instruct you to tell you that the only way out is through hard work”

Wake up everyday, train hard, increase your power level, increase your power level and prepare yourself as much as possible.

NO EASY MONEY IN THIS WORLD.

What I expect from every single one of you is hard work and discipline.

“This project is as big as it could possibly be”

It is now down to you to be in a position in which you deserve to be rewarded.

This is a massive opportunity,.

Understand this: “I didn't even try. With a new project, you will see the power of Top G in the real world.”

It is down to you to work hard to own a small percentage of it to change your life forever.

FAKE projects will appear → don't buy into any of them.

“If it isn't out of my mouth, it ain't real.”

You have to stay inside TRW to save your power points and rank. Quitting will ensure you lose all your money.

“I’ve seen the look of quitters before.” All of you who lose will lose your sanity.

Andrew will put together a document to teach you how to increase your rank and power level.

There’s a lot of money in tomorrow’s news. Perhaps you’ll be able to purchase channels that will allow you to learn where money is going.

What to do forward: Focus on your work, do your job, don’t ignore your work and when you work hard enough money will be put on a plate for you.

You need to work hard inside TRW.

Join the Council.

Worry about your job and your job only and the whole country will be conquered.

Any pertinent questions will be answered inside the #Tate channel.

Financial freedom is coming for all of you IF you are prepared to work hard.

“You’re the only person who can make this work and you’re the only person who can fuck this up”

If you lose your membership, rank or power level, you deserve to lose the money that is coming for you.
