

**RICHMOND-BURTON COMMUNITY HIGH
SCHOOL
ROCKET UPDATE
9/24/21**

What an amazing week it has been! So many students are engaged in what we are doing here. There has been such an unbelievable sense of community this week. I thank everyone for their great attitudes and participation.

- ❑ HOMECOMING INFORMATION 7:00 - 9:00 PM
 - ❑ [Homecoming Dance](#)
 - ❑ It may be a little chilly so please wear extra layers. Students will not be permitted to go back and forth to their cars.
 - ❑ All students driving must park in the student lot. All pick up and drop offs will be at the front of the building following a traditional daily traffic pattern.

As we inevitably enter into the fall and winter, we will enter into the cold and flu season. The number one thing we can all do to keep us going is to stay home if we are feeling sick. Contact tracing for asymptomatic cases is significantly less severe than for cases in which students had been displaying symptoms while in school. Together we can keep it going.

If a child is quarantined, the following document helps to outline the academic portion of that time period. In all cases, I will reach out to each family.

[Academic Guidelines for Students in Quarantine](#)

If you find yourself needing to take a COVID test we have had great success using the new clinic in Richmond near the middle school.

Thank you for everything. It was such an awesome week!

A handwritten signature in black ink, appearing to read "T. B. O.", located at the bottom of the page.
