

ADVANCE COPY REVIEW

Link to push-up video -

<https://rumble.com/v5aspy4-push-up-video-for-advance-copy-review-13-aug.html>

Product and its strength and weakness

Name - Advance Vedic Maths Course.

What does it teach?

It helps students to solve maths numerical calculations fast and reduce careless mistakes.

Strength:

The offer - We promised to improve their child's maths calculation speed, minimize careless mistakes,, and increase their love towards the subject in 3 hours.

Weakness:

The TA might take some time to digest the offer because they tried and failed multiple times.

(Not with the product itself but on other things)

Steps In funnel

1. Meta sales ad campaign.
- 2. Low ticket product (Vedic Maths)**
3. Collect leads and divide them into grades.
4. Upsell courses (\$50 - then \$250) according to the grades using WhatsApp marketing.

Winners Writing Progress.

Who Am I Writing To?

- Parents of kids between the ages of 10 to 15 years old.
- Geography - India
- Income - \$300 - \$2000 a month.
- Occupation - Any.

Where are they right now in the funnel?

They are aware that the steps they are taking are not giving any results but they keep doing the same thing over and over because they are not aware of the right solution.

They are angry with their kids for not giving results.

They are looking for the right ways to solve their problem which is to improve their child's maths knowledge.

What action do I want them to take?

I want them to click the link and buy the lead magnet which is \$3.5

Then filter the audience by age, Upsell to a \$50 product then \$300 product.

What must they experience inside of my copy to go from where they are now to taking the action I want them to take?

They must feel that the problem is not with their child but the school methods.

They must understand that they are wasting their time over the same things which does not provide any result.

They must feel the fear of starting late in the race to prepare for competitive examinations.

They must feel the need to make their child strong in Maths.

Reader's roadblocks and the solutions/mechanisms to solve them

Not aware of the right solution. They are trying the same thing over and over again.

Main Problem and Solution

Their child is not performing well in maths.

They make a lot of careless mistakes and they are very slow at solving numerical problems.

Scoring lower marks in exams and not showing any interest in the subject.

The solution to the roadblocks

Advance Vedic Maths Course.

It helps students to solve maths numerical calculations fast and reduce careless mistakes.

Where the reader is in terms of awareness, sophistication, thought process, and where they are inside the funnel.

- Problem awareness - YES
- Solution awareness - NO
- Company awareness - NO

Thought process:- I have made multiple efforts like extra classes, tuition, and other online courses but no result.

Other students in his/her class are doing too well but my child is lacking.

Personal Analysis

I think I'm not focusing much on trying to break their objections as this is a very low-ticket product. \$3.5 USD.

I didn't spend much time explaining the origins of the product or about the author/ coach.

Steps were taken to review my copy

Copy pasted in 11labs to read the copy out loud to fix the tread breaks.

Asked my 5th-grade brother to read and explain everything he understood. The message was delivered right.

Attention Parents of 5th graders to 10th graders who want to make their child a math hero in 3 hours.

Faster Calculation – No Careless Mistake – With Our Advanced Vedic Maths System --Guaranteed.

In 3 Hours, We will make your child solve maths calculations in just 10 seconds and make them a hero in tomorrow's class.

4.6 Star Of 293 Review

15 years of experience

Check the box if this sounds like your child:

- He/she often makes careless mistakes in my math calculations.
- They are good at math, but they make careless mistakes.
- It takes them a lot of time to solve math problems.
- My child doesn't enjoy math because they find it hard.

If you have checked any one of these boxes, you are in the right place.

Check the box if this sounds like you:

- I believe maths is the most important subject for school and competitive exams.
- I'm always searching for ways to boost my child's academic performance.
- I want my child to be the top student in their class.
- I'd be thrilled and very proud to see my child helping others with their questions.

If you have checked any one of these boxes, then this message is for you.

From,
Nargis Fathima
Competitive Exam Trainer
Principal @ Anbaalaya Sainik

Dear Parents,

Imagine your child becoming the class hero— in tomorrow's class.

It doesn't matter if they've struggled with maths or made countless careless mistakes, they will be able to challenge their maths teacher.

Picture this: Your child confidently solving problems in under 5 seconds, leaving their classmates in awe and their parents reaching out to you, asking **HOW?**

And you'll be smiling with pride while leaning back on a chair.

The traditional methods taught in schools are slow, prone to errors, and—**let's be honest**—they don't enjoy solving those long, time-consuming calculations.

This is one of the important reasons why no students like maths. But after today, you won't have to remind them to do their homework. They'll be eager to do it on their own.

Here's what's about to happen: Within 3 hours of starting this course, your child will get access to **4 Mind Blowing Tricks, 3 No School Knows This Trick & 5 Magic Tricks.**

Module 01 (Mind-Blowing trick 01): Multiply any 2-digit number in under 5 seconds. (*Learning time: 5 minutes*)

Module 02 (Mind-Blowing trick 02): Multiply any 3-digit number in under 5 seconds. (*Learning time: 5 minutes*)

Module 03 (No School Knows This Trick 01): Multiply by 9, 99, 999, 9999... in under 1 second. (*Learning time: 10 minutes*)

Module 04 (Mind-Blowing trick 03): Multiply any 2-digit number between 11-19 in under 3 seconds. (*Learning time: 5 minutes*)

Module 05 (Magic Trick 01): Multiply any 2-digit number by 19, 29, 39, 49, 59, 69, 79, 89... in under 3 seconds. (*Learning time: 10 minutes*)

Module 06 (Magic Trick 02): Addition of any random series like $21+22+23+\dots$ ∞ , $37+38+39+\dots$ ∞ in under 3 seconds. (*Learning time: 10 minutes*)

Module 07 (Magic Trick 03): Solve any 2-digit division by 19, 29, 39, 49, 59, 69, 79, 89... in under 3 seconds. (*Learning time: 15 minutes*)

Module 08 (No School Knows This Trick 02): Divisibility rules for prime numbers like 7, 13, 17, 19, 23, etc. (*Learning time: 10 minutes*)

Module 09 (Magic Trick 04): Division by 99 and 98 in under ONE second. (*Learning time: 5 minutes*)

Module 10 (Magic Trick 05): Find the square root of any cube number in under 3 seconds. (*Learning time: 5 minutes*)

Module 11 (Mind-Blowing trick 04): Find the square of any 2-digit number in under 5 seconds. (*Learning time: 5 minutes*)

Module 12 (No School Knows This Trick 03): Find the square of any number that starts and ends in 5 like 15, 275, 52, 65, 57, 3455, 346845... in under 3 seconds. (*Learning time: 5 minutes*)

12 Modules, XY minutes of classes, and 10 steps ahead of their teachers and their peers.

This course will completely transform your child's approach to math. You can make them the fastest, most accurate, and the smartest student in their class.

You see... I believe so strongly that these 3 hours will boost your child's maths-solving ability 10x and it is very different than anything you've ever tried before that I'm going to take all the risk away from you and give you a full 15-day money-back guarantee.

Here is what I mean: Get access to the course right now and ask your child to complete the 3 hours of classes.

When they do watch how quickly

- > They start solving maths problems without making any careless mistakes.
- > Their entire class starts to see him as a human calculator.
- > His/her love for maths increases.

If you're not with this course for any reason, send me an email and I'll quickly and happily refund 100% of your money, with no hard feelings.

I will see you inside.

Yours Sincerely
Nargis Fathima

Right now you have an important decision to make...

In fact, it's possible it's the most important decision you'll ever make.

It's a decision that will have a dramatic effect, not only on your child's mathematics but also on their future competitive exams.

And what it comes down to is this - you can go on from here and keep doing what you're doing like sending them to tuition and extra classes and by logic, you'll keep getting the same results.

But you and I both know that you deserve better than that otherwise, you wouldn't be here.

Or right now you can click the button below to get immediate access to our Advanced Vedic Maths System and transform their mathematics forever.

At the end of the day, I can't make the decision for you.

It's up to you to take advantage of this deeply discounted price while it's still available.

All you have to do is click the button below to get started right now. And remember, you risk nothing. Because not only are you fully guaranteed.
